New facility to double certified rice seed supply

The new plant, located at Kirogo Farm, is expected to revolutionize rice farming by supplying affordable, high-quality seeds to thousands of farmers across the country. Equipped with advanced processing technology and modern storage systems, the facility has the capacity to produce 40 tonnes of certified rice seed daily, translating to approximately 700 tonnes annually.

Kenya bets on new seed plant to reduce rice imports

Agriculture Principal Secretary Dr. Paul Kipronoh Ronoh and South Korean Ambassador to Kenya Kang Hyung-shik flagging off certified rice seeds.

BY DAVID WANDETO (KNA)

The Government has unveiled a state-of-the-art certified rice seed processing facility in Mwea, Kirinyaga County, as part of efforts to reduce reliance

on imports and strengthen the country's food security.

The facility, located at Kirogo Farm, is expected to transform rice farming by supplying affordable, high-quality certified seeds to thousands of farmers

across the country. Speaking during the launch, Agriculture Principal Secretary Dr. Kipronoh Ronoh described the facility as a major milestone in Kenya's efforts to increase rice production.

He noted that Kenya currently

produces only 23 per cent of the rice consumed locally, forcing the country to depend heavily on imports to meet demand.

Dr. Ronoh expressed optimism that the new facility will significantly reduce the import burden while enabling farmers to increase productivity through access to quality seeds.

The project is jointly funded by the Governments of Kenya and South Korea through the Korea Programme on International Agriculture (KOPIA).

Equipped with advanced processing technology and modern storage systems, the facility has the capacity to produce 40 tonnes of certified rice seed daily, translating to approximately 700 tonnes annually.

According to Dr. Ronoh, the increased availability of certified seeds will ensure farmers have reliable access to quality planting materials, leading to higher yields and improved incomes.

"This facility will not only enhance productivity but also attract young people and investors to agriculture while supporting the Government's food security agenda," he said.

South Korean Ambassador to Kenya, Kang Hyung-shik, underscored the importance of agriculture to Kenya's economy, noting that the sector contributes 23 per cent of the country's Gross Domestic Product and provides employment to more than half of the workforce.

He emphasized that South Korea highly values its

This facility will enhance productivity and also attract young people and investors to agriculture

long-standing partnership with Kenya, which dates back to 1964, and highlighted ongoing cooperation in agricultural technology transfer, innovation, and mechanization.

The Ambassador revealed that South Korea already imports Kenyan tea and coffee and is working towards importing avocados once the process is finalized.

"We are seeking to expand cooperation in agricultural technology and mechanization to improve food production and farmers' incomes," he said.

He noted that the Korean government is supporting humanitarian programmes in Kakuma and Dadaab refugee camps while also investing in agricultural projects aimed at enhancing food security.

Kenya Agricultural and Livestock Research Organization (KALRO) Director General Dr. Patrick Ketiem said the facility's modern technology will directly benefit farmers by improving access to certified seeds.

He explained that KALRO has developed five rice varieties including Komboka, Mkombozi, and Tongil that are high-yielding

and disease-resistant.

Some of these varieties can produce up to seven tonnes per acre. Dr. Ketiem assured farmers that KALRO will work closely with cooperatives and farmers' organizations to ensure wide-spread distribution of certified seeds.

"The future of rice farming in Kenya is promising. We shall do everything possible to ensure farmers get quality certified seeds," he said, while thanking the South Korean government for supporting training programmes for Kenyan agricultural experts.

KOPIA Kenya Country Director Ji Gang Kim added that the project, which began in 2024, will not only serve Kenyan farmers but also train farmers from across East Africa in modern rice farming technologies.

This regional approach, he said, will help spread innovation and strengthen food security beyond Kenya's borders.

Kirinyaga County Executive Committee Member for Agriculture Dr. John Gachara praised both governments for supporting agricultural transformation in the county.

Meanwhile, Mwea Rice Growers Multipurpose Cooperative Society Agronomist, Michael Mwangi, said the region has long struggled with seed production challenges but expressed confidence that the new facility will resolve the problem.

CS Kabogo champions inclusive digital transformation for PLWDs

BY HANIFA TAMIM (PCO)

The Cabinet Secretary for Information, Communications and the Digital Economy, William Kabogo, has called for a people-centered digital transformation agenda that guarantees equal access to technology for all citizens, particularly persons with disabilities.

He warned that Africa's digital future cannot be fully realized if sections of society remain excluded.

Speaking during the opening of the 7th Inclusive Africa Conference in Nairobi, Kabogo said accessibility must be treated as a core component of digital development rather than an afterthought. He emphasized that as governments increasingly digitize services and economies become more technology-driven, access to digital technologies has become essential for participation in education, healthcare, business, public services and civic engagement.

"The measure of digital transformation is not the sophistication of the technology we deploy, but whether every citizen can benefit from it," Kabogo said.

The Cabinet Secretary noted that Kenya's digital transfor-

CS Kabogo speaking during the 7th inclusive Africa conference

mation agenda is anchored on inclusivity and can only succeed if no citizen is left behind. He said the government remains committed to creating an enabling digital environment where persons with disabilities can fully participate and benefit from emerging opportunities.

Kabogo also highlighted the growing role of Artificial Intelligence (AI) in advancing accessibility and inclusion, citing Kenya's National Artificial Intelligence Strategy, which places equity and accessibility at its

core. He said the strategy seeks to ensure that technological innovations expand opportunities for persons with disabilities instead of creating new barriers.

At the continental level, the Cabinet Secretary called for stronger collaboration among African countries in developing and harmonizing digital accessibility standards. He observed that an inclusive digital economy will be critical in unlocking opportunities under the African Continental Free Trade Area (AfCFTA).

He commended stakeholders

involved in the development of KS 2952:2022, Kenya's Standard for Accessibility of ICT Products and Services, describing it as a major milestone in promoting digital inclusion. He further welcomed ongoing efforts to align accessibility standards across Africa.

Kabogo urged governments, development partners, private sector players and organizations representing persons with disabilities to work together in mainstreaming accessibility in public procurement, digital infrastructure, online services and future technology investments.

The CS said Kenya has made significant progress in expanding digital access through the government's Digital Superhighway Programme, which has seen the deployment of more than 30,000 kilometres of public fibre-optic infrastructure across the country. The project has enhanced connectivity for schools, healthcare facilities, government institutions and communities.

He also highlighted the success of the Jitume Digital Hubs Programme, which has established more than 270 operational hubs equipped with over 17,700 digital devices.

NYOTA beneficiaries to receive second grant tranche by June 30

BY NANCY OMONDI AND ARON KINYAMASYO (KNA)

The Government has assured beneficiaries of the National Youth Opportunities Towards Advancement (NYOTA) project that the second tranche of business start-up grants will be disbursed by June 30, 2026, following delays caused by budgetary adjustments.

Speaking during a press briefing in Nairobi, Principal Secretary for Micro, Small and Medium Enterprises (MSMEs) Development Susan Mang’eni said all eligible beneficiaries would receive the funds before the end of the current financial year.

She said the grants would be released simultaneously to beneficiaries across the country.

“To this extent, we wish to announce and confirm that the disbursement for the second

PS, State Department for MSMEs Development Susan Mang’eni (centre), Financial Services Advisor for the Presidential Secretariat Moses Mbanda (left) and CEO for MSME. Authority Henry Ridhaa (2nd from right) and Mohammed Doyo Secretary for MSMEs (right).

tranche of business start-up capital will happen by June 30th, 2026. All beneficiaries will receive the grants at the same time, unlike the first tranche disbursement which was phased out in clus-

ters,” said Mang’eni. The World Bank-supported NYOTA project seeks to empower vulnerable and marginalized youth through business training, mentorship, entrepreneurship support,

apprenticeship, recognition of prior learning, job placement and access to market opportunities. The five-year programme, which commenced implementation on March 2025, attracted about two million applicants under its Business Support Component, demonstrating strong entrepreneurial interest among Kenyan youth.

Mang’eni said 122,147 young people from all the country’s 1,450 Wards had successfully undergone entrepreneurial aptitude assessments and business development support training and had received the first start-up grant of Sh25,000, with Sh3,000 retained as savings under the National Social Security Fund (NSSF).

She noted that monitoring conducted after the first disbursement showed encouraging results, with more than 99 per cent of beneficiaries having established

businesses. “The outcome of the first mentorship nationwide hand-holding session and the second business development support classroom training show that over 99 per cent of the beneficiaries of the start-up grant had already established their businesses,” she said.

According to the PS, the Government revised the project’s original phased implementation model following the overwhelming response from applicants and interventions by President William Ruto and the World Bank. The move allowed all targeted beneficiaries to be enrolled at once instead of being spread across three separate intakes.

She explained that the adjustment compressed project activities into a single financial year, creating budgetary pressure that delayed the second disbursement.

“We regret the delay, but it was necessitated by the need for budgetary enhancements after the project design was adjusted to accommodate all selected beneficiaries at once,” she said, adding that the National Treasury was working to resolve fiscal constraints.

FINANCIAL REPORTING CENTRE

International Financial Intelligence Units Day

Theme: Renewed Impetus for Combating Illicit Financial Flows

MESSAGE FROM THE DIRECTOR GENERAL

The Financial Reporting Centre (FRC) today joins the global community in celebrating International Financial Intelligence Units (FIU) Day, a moment dedicated to recognising the essential role that FIUs play in protecting financial systems and supporting the fight against money laundering, terrorism financing, and related financial crimes.

International FIU Day provides an opportunity to highlight the work of Financial Intelligence Units worldwide and to honour the professionals who ensure compliance, analyse financial intelligence, support investigations, and help disrupt illicit financial flows. FIUs operate at the intersection of the financial sector and law enforcement, transforming raw financial data into actionable intelligence.

“Financial Intelligence Units play a critical role in safeguarding financial integrity,” said Naphtaly Rono, Director General of the FRC. “Every day, FIU analysts and specialists work behind the scenes to identify suspicious financial activity, support investigations, and contribute to the protection of our economy and society.”

Within Kenya, the FRC serves as the national centre for the receipt, analysis, and dissemination of financial intelligence. By working closely with reporting entities majority of which are in the private sector, law enforcement authorities, prosecutors, supervisors, and other competent authorities, the FIU supports effective responses to financial crime and strengthens the national anti-money laundering and counter financing of terrorism (AML/CFT) framework.

Cooperation as the Cornerstone

International FIU Day also underscores the importance of cooperation. Financial crime increasingly operates across borders, requiring timely and trusted information sharing among FIUs and their domestic partners. No single agency, and no single country, can stem the tide of illicit finance alone. “In today’s financial threat environment, cooperation and infor-

mation sharing are essential,” said Mr. Rono. “The international FIU Day highlights the value of collaboration, innovation, and strong analytical capacity in responding to evolving financial crime risks.”

The FRC has therefore intensified its domestic partnerships with the reporting entities, regulatory bodies, law enforcement and prosecutorial agencies and other competent authorities. Beyond Kenya’s borders, the FRC exchanges intelligence with over 170 FIUs through the Egmont Group’s secure network, the global standard for trusted financial information exchange.

Innovation and the Fight against Emerging Threats

As financial crime becomes more complex and technology enabled, FIUs continue to adapt by enhancing analytical tools, leveraging data driven approaches, and investing in skills and expertise. The FRC is no exception. It is currently upgrading its internal capacity through acquisition of advanced tools and upskilling of its staff to unmask complex money laundering schemes and prioritise high risk Suspicious Transaction Reports (STRs) and Cash Transaction Reports (CTRs). The aim is to achieve excellence in the delivery of its mandate.

The FRC has also launched targeted training programmes for sectors identified as vulnerable to exploitation for money laundering and terrorism financing, in addition to the routine AML/CFT capacity building of all the sectors.

Brief Update on FATF Grey List

Kenya remains under increased monitoring by the Financial Action Task Force (FATF), commonly referred to as the “Grey List”. The FRC, as the designated coordinating agency, has overseen substantial progress in addressing the strategic deficiencies in the AML/CFT framework. According to the FRC, the vast majority of the remaining action items agreed upon with the FATF International Cooperation Review Group (ICRG) have been largely addressed. The FRC is work-

Naphtaly K. Rono, MBS, HSC - Director General FRC

ing with the National Treasury and all relevant stakeholders to address the remaining action items. Kenya is committed to addressing all the pending action items, and an exit from the “Grey-List” in the near term is achievable with sustained collective effort from all of us.

Aligning with National Priorities: BETA Agenda

Beyond international compliance, the FRC has explicitly linked its work to Kenya’s Bottom Up Economic Transformation Agenda (BETA). His Excellency President William Ruto’s flagship economic plan depends in a large part, on expanding affordable credit to Micro, Small, and Medium Enterprises (MSME), widening the tax base, and protecting formal financial channels from criminal abuse. Money laundering directly undermines those goals.

“When a digital lender is used to launder drug money, the cost of credit for an honest borrower rises. When proceeds of corruption are hidden in real estate, housing becomes less affordable for young professionals,” says DG Rono. According to Mr. Rono, “The FRC is an economic security agency,” In his

view, “when we strip criminals of their access to the financial system and deny them the ability to launder illicit wealth, we are creating fiscal space for BETA. We are ensuring that credit flows to the hustlers and not the kingpins.”

Linkage to Sustainable Development Goals 2030

Under the Sustainable Development Goals Target 16.4, the global community committed to significantly reduce illicit financial flows, strengthen recovery and return of stolen assets, and combat all forms of organised crime by 2030. This commitment frames illicit financial flows reduction not only as a compliance exercise but also as a development imperative for any nation.

A Call to Action for All

On this International FIU Day, the FRC joins FIUs around the world in recognising the contribution of FIUs and reaffirming a shared commitment to protecting financial systems, supporting justice, and promoting international cooperation.

Reporting institutions are urged to file Suspicious Transaction Reports

that are timely, detailed, and risk-based. On the other hand, government agencies are called upon to timeously respond to FRC intelligence requests and reports. Parliament is also encouraged to expedite any amendments brought before them to ensure we strengthen our AML/CFT framework.

Likewise, members of the public are encouraged to use the FRC’s anonymous reporting channels when they encounter suspicious activity, whether in a Bank, SACCO, Insurance Company a digital lending app, or any other channel.

“Let us partner together or the criminals will pull our economy apart,” Mr. Rono said. “The Grey List is not a life sentence. It is a mirror. It shows us where we must improve, and with every sector working as one, we will exit that list and build a financial system that Kenyans and the global community trust.

The international FIU Day is therefore a reminder that financial integrity is a collective good and as important as national security or public health. The FRC continues to do its part. At this critical juncture, it is imperative for every business, every Kenyan and every government office to do the same.

About the Financial Reporting Centre (FRC)

The Financial Reporting Centre is Kenya’s Financial Intelligence Unit, established under Section 21 of the Proceeds of Crime and Anti Money Laundering Act (POCAMLA), 2009. It is the national centre responsible for the receipt and analysis of Suspicious Transaction Reports (STRs), Cash Transaction Reports (CTRs), and other information relevant to combating money laundering, terrorism financing, and proliferation financing. Its principal objective is to assist in the identification of the proceeds of crime and to combat money laundering, terrorism financing and proliferation financing, while exchanging information with foreign FIUs based on mutual agreement and reciprocity. FRC also issues guidelines, designs training requirements, and conducts inspections to ensure compliance with AML/CFT obligations. The FRC is headquartered in Old Mutual Tower, Nairobi.

KR targets 5,000 tonnes cargo on revived Gilgil–Nyahururu line

Passengers at the newly revived Gilgil Railway Station after maiden trip through the revived Nairobi - Gilgil - Old Kalou - Nyahururu railway route, which Kenya Railways Corporation has operationalized after a 46-year hiatus, banking on it to boost cargo and passenger movement. PHOTO: ERASTUS GICHOHI.

BY ERASTUS GICHOHI (KNA)

The Kenya Railways Corporation now targets to transport over 5,000 tonnes of cargo and 1,000 passengers each transit through the revamped Gilgil–Ol Kalou–Nyahururu railway line that has remained dormant for the last 46 years.

The corporation said that the revival is expected to improve access to markets for the agricultural rich farmers and provide affordable transportation which will stimulate trade and investment along the corridor.

It added that the key railway route will also ease cargo movement between production areas and the Naivasha Inland Container Depot and strengthen Kenya’s integrated transport and logistics network.

According to the corporation, 1,000 tonnes of government-subsidized fertilizer have already been delivered to National Cereals and Produce Board depots in Ol Kalou and Nyahururu, directly supporting farmers in Nyandarua and Laikipia counties growing potatoes, carrots, wheat and other crops.

According to the Corporation Director, Philip Mainga, they target to transport

over 1,000 passengers each transit three times a week and ship 5,000 tonnes of cargo thanks to new trains and cabins.

Speaking to the press in Gilgil station after a brief stopover, Mainga noted the government had revamped over 80 railway routes driven by rising demand mostly in Nairobi and its outskirt towns.

Mainga said the new route will help revive and ease the transport of agricultural materials such as potatoes, cabbages and avocados from the region to the market, offering farmers access to markets.

He noted that the Corporation has reduced the cost of transport on their new trains, charging Sh 600 from Nairobi to Nyahururu, Nairobi to Ol Kalou Sh 550 and Nairobi to Gilgil Sh 450.

He said the organisation was on plan to tap green energy and transition to electric trains especially in Nairobi and would add more Electric Multiple Units to their fleet.

Mainga said the

The new route will help revive and ease the transport of agricultural materials such as potatoes, cabbages and avocados

government move to revive and operationalise the railway routes was driven by rising demand for cargo and passenger movement.

The Director sent a warning against individuals involved in theft and vandalism of railway infrastructure noting that criminal charges have been slapped to such perpetrators and were serving lengthy jail terms.

He said major players including OCP Kenya, Bamburi Cement, New KCC and Freight Terminals limited have expressed interest, with additional opportunities in construction materials, livestock and agricultural products to ship cargo through the line.

Mainga added that the line will see communities along the corridor gain a safe, affordable and environmentally friendly transport option, improving mobility and access to social services.

The Director noted that the revival supports Kenya Vision 2030, leveraging rail to connect production centres, markets and communities at both micro and macro economic levels.

The Gilgil–Nyahururu line was initiated by the colonial government in the 1920s and operationalised in 1929.

MINISTRY OF ROADS AND TRANSPORT

STATE DEPARTMENT FOR ROADS

PUBLIC NOTICE

CALL FOR COMMENTS & INVITATION FOR PUBLIC PARTICIPATION ON THE DRAFT ENGINEERING TECHNOLOGY (REGISTRATION, LICENSING AND COMPLIANCE) RULES, 2026 AND THE DRAFT REGULATORY IMPACT STATEMENT

The Engineering Technology Act (Cap. 530A) was enacted in 2016. Section 3 of the Act establishes the Kenya Engineering Technology Registration Board to advance technology in Kenya. The Act confers upon the Cabinet Secretary for Roads and Transport in consultation with the Kenya Engineering Technology Registration Board power to make rules under section 49 relating to various matters including procedures for registration, licensing and compliance.

IT IS NOTIFIED for information of the general public that the Cabinet Secretary for Roads and Transport, in consultation with the Kenya Engineering Technology Registration Board, has developed draft Engineering Technology (Registration, Licensing and Compliance) Rules, 2026.

The object of these Rules is to:

- (a) establish a structured framework for registration, licensing, compliance and enforcement; and
- (b) promote professional competence, ethics and public safety.

FURTHER in compliance with section 6 of the Statutory Instruments Act (Cap. 2A) which require the regulation making authority to, prepare a regulatory impact statement about the proposed Rules, the Cabinet Secretary for Roads and Transport has, in consultation with the Board, prepared a Regulatory Impact Statement for the proposed Rules.

FURTHER AWARE THAT Article 10 of the Constitution as read with section 5 of the Statutory Instruments Act (Cap. 2A) require a regulation making authority to undertake public participation and make appropriate consultations with persons who are likely to be affected by proposed rules. The provisions of section 5 further provide that the consultations envisaged under the Statutory Instruments Act shall involve notification, by advertisement, of persons who are likely to be affected by the proposed instrument.

NOW THEREFORE, pursuant to Article 10 of the Constitution and sections 5 and 6 of the Statutory Instruments Act, the Cabinet Secretary invites interested members of the public, stakeholders and organizations to submit comments, views or make representations regarding the draft Rules and the draft Regulatory Impact Statement.

Written memoranda or comments may be delivered to the Office of the **Principal Secretary, State Department for Roads, 10th Floor, Works Building, Ngong Road P.O Box 30260-00100 Nairobi** or through email: ketr.rules2026@roads.go.ke. The Regulatory Impact Statement and the proposed Rules may be accessed at the following links: <https://roads.go.ke/policy-documents> or <https://ketr.go.ke/draftregulations2026>.

Additionally, there shall be physical meetings for public consultations at venues and dates shown in the table below:

S / No.	COUNTIES	VENUE	DATE	TIME
1.	Garissa, Wajir and Mandera	North Eastern National Polytechnic, Garissa	29 th June 2026	9.00am -1.00pm

- Shortlisted candidates shall be required to produce originals of their National Identity Card, academic and professional certificates, as well as transcripts during interviews.
- It is a criminal offence to present fake certificates/documents.
- The application will be closed on **Tuesday, 30th June 2026**.

The Kenya Medical Training College is an Equal Opportunity Employer committed to implementing Affirmative Action. In this regard, Youth, Women, Persons with Disability, and Minorities with the requisite qualifications are encouraged to apply. Please note that only shortlisted candidates will be contacted. Any form of canvassing will lead to automatic disqualification.

CHIEF EXECUTIVE OFFICER

Quality health training towards realization of Vision 2030

Leaders urged to nurture learners beyond academics

BY SAMMY MWIBANDA (KNA)

Head of Public Service Felix Koskei has called on stakeholders in the education sector to work together in nurturing learners academically, morally and spiritually to achieve better educational outcomes in the country.

Koskei, who was the chief guest at an interdenominational prayer service for senior schools in Chemase Zone, said education remains a critical pillar of national development. He urged parents, teachers, religious organisations and government institutions to effectively play their respective roles in guiding young people.

He noted that while academic excellence is important, the spiritual growth and moral upbringing of learners are equally vital in producing responsible citizens capable of positively contributing to society.

“The success of our children depends on the collective efforts of all stakeholders. We must continue working together to provide a conducive environment that enables learners to excel in their studies while embracing values that strengthen our communities,” he said.

Koskei encouraged students to remain disciplined, focused and committed to their studies, adding that integrity, hard work and respect for others would help them achieve their aspirations.

During the occasion, speakers underscored the need for closer collaboration among education stakeholders and greater emphasis on spiritual nourishment during event in Tinderet Sub County.

The event, held at Kapsigilai

The Head of Public Service, Felix Koskei, left, shakes hands with Tinderet MP, Julius Melly.

Girls Senior School brought together students, teachers, parents, religious leaders, education officials and political leaders in a show of unity and commitment to improving educational standards in the region.

Tinderet Member of Parliament, Julius Melly, emphasized the importance of partnership among education stakeholders in addressing challenges facing schools.

He said collective responsibility was necessary to improve academic performance and ensure learners received holistic devel-

opment. Melly urged students to make good use of available learning opportunities and avoid activities that could derail their educational journey.

Nandi Governor Stephen Sang underscored the role of spiritual guidance in shaping responsible members of society.

He observed that prayer and moral instruction help instill values that complement academic achievement and contribute to peaceful coexistence.

The governor reaffirmed the county government’s commitment to supporting initiatives aimed at improving the quality of education and the welfare of learners across the county.

Nandi Woman Representative Cynthia Muge challenged students to remain steadfast in their pursuit of excellence.

“The success of our children depends on the collective efforts of all stakeholders.”

Kenya seeks relief for flower exporters at IFTEX 2026 forum

BY WANGARI NDIRANGU (KNA)

The Government has reaffirmed its commitment to revitalising the floriculture sector by addressing persistent challenges such as high air freight costs, delayed VAT refunds, and regulatory hurdles.

Speaking during the opening of the 13th International Flower Trade Exhibition (IFTEX) 2026 in Nairobi, Trade and Investments Cabinet Secretary Lee Kinyanjui said the floriculture industry remains a strategic sector under the government’s economic transformation agenda.

Recognizing the industry’s vital role in driving exports, creating jobs and sustaining rural livelihoods, Kinyanjui emphasized that addressing these barriers is essential to enhancing Kenya’s competitiveness in global markets.

“By streamlining policies, improving logistics, and fostering a more supportive business environment, the government aims to secure its position as a leading supplier of cut flowers worldwide while ensuring that growers and exporters can thrive in an increasingly competitive international arena,” said the CS.

Kinyanjui noted that the sector generates about Sh. 110 billion annually in export earnings, employs more than 200,000 people directly, and supports millions of livelihoods across the country, remaining as Africa’s largest flower exporter, especially of roses.

“The government is engaging relevant institutions to improve VAT refund efficiency, streamline regulations, strengthen logistics infrastructure, and expand market access opportunities for Kenyan products,” the CS promised.

Trade and Investments Cabinet Secretary Lee Kinyanjui accompanied Principal Secretary, State Department for Trade, Regina Ombam at the IFTEX exhibition today at Oshwal Hall

Homa Bay fast-tracks school land titles to guard against encroachment

BY SITNA OMAR (KNA)

The Government has intensified efforts to secure land ownership for public schools in Homa Bay County through an accelerated land titling program aimed at protecting educational institutions from encroachment and boundary disputes.

Speaking during a sensitization meeting of school heads on title deeds acquisition held at Ogande Girls High School, Homa Bay County Commissioner Ronald Mwiwawi said the initiative seeks to accelerate the titling of public school land and simplify access to land services.

The meeting brought together more than 100

Homa Bay County Commissioner Ronald Mwiwawi heads the Ogande Girls High School's sensitization meeting on title deeds. PHOTO: SITNA OMAR

school principals and Boards of Management (BOMs) with officials from the Ministry of Lands, National Land Commission (NLC), Ministry of Education and local admin-

istration. The meeting also aimed at addressing challenges in accessing land services. According to the County Commissioner, the meeting was prompted by widespread concerns

from school administrators and (BOMs) with officials from the Ministry of Lands, National Land Commission (NLC), Ministry of Education and local administration. The meeting

also aimed at addressing challenges in accessing land services.

According to the County Commissioner, the meeting was prompted by widespread concerns from school administrators and members of the public who view the process of acquiring title deeds as lengthy, expensive and difficult to navigate, a misconception the government is working to address through public sensitization.

"We wanted them to interact directly with land officials because many people have been complaining that obtaining title deeds is a tedious process and that accessing land offices can be a challenge. That is the reason why most

schools lack that crucial document," said Mwiwawi.

He added that bringing onboard officers from the Ministry of Lands, the National Land Commission and other government agencies was aimed at improving service delivery and ensuring that accurate information reaches schools across the county. "As government, we are committed to bringing services closer to the people. Today, land officials explained the procedures involved, the offices that need to be visited and the documents required. School heads can now engage directly with the responsible officers and even invite them to their areas for further assistance," he added.

350 Homa Bay beekeepers get training to improve honey production and marketing

BY SITNA OMAR (KNA)

More than 350 beekeeping farmers in Kasipul Kabondo, Homa Bay County, have undergone a training programme aimed at improving honey production, environmental conservation and market access.

The training, organized by the Lake Basin Development Authority (LBDA) in partnership with the Wire Forest Management Association and Hive Limited,

follows a Memorandum of Understanding (MOU) signed last month to strengthen the beekeeping value chain in the region.

The initiative is expected to strengthen beekeeping value chain by improving honey production, empower communities and enhance environmental conservation efforts across the county.

Speaking after the training, LBDA Managing Director Wycliffe Ochiaga reiterated that the initiative seeks to equip farmers with

modern beekeeping knowledge and practical skills that will improve both the quality and quantity of honey production.

He noted that the training focused on hive management, bee farming practices, and the beekeeping calendar to help farmers properly monitor and manage their apiaries throughout the year.

"It has been a two-day training and we have trained them on apiaries setting and honey production," he added.

County intensifies fight against tropical diseases through clean water projects

BY ISIAH NAYIKA (KNA)

The County Government of Trans Nzoia has applauded the contribution of partners in the mitigation of Neglected Tropical Diseases (NTDs).

County Executive Committee Member for Health and Sanitation Christopher Lorot said the county has intensified efforts to eliminate NTDs through the implementation of safe and clean water projects. He noted that the significant contribution of partners in the fight against the diseases

Residents of Keiyo Ward in Trans Nzoia County collecting water from one of the points erected by the county government.

cannot be ignored. Lorot was speaking at the county headquarters while unveiling a presentation on the interventions

the government has taken to deal with NTDs while collaborating with partners. He said that safe water

supply and sanitation projects in the region more so in Keiyo Ward have largely helped to eradicate NTDs like bilharzia, jiggers and intestinal worms. “Keiyo Ward had a prevalence rate of 2% for bilharzia. Through boreholes and rehabilitation of Asegam Dam, the community now has clean water and the bilharzia cases have reduced,” he said. Lorot said, the County has set aside Sh3 million to boost water and sanitation strategies, Lorot added that the allocation will to a greater extent give a lift

to the intervention efforts. Besides prevention strategies, the county has also considered curative aspect where enough praziquantel tablets have been ordered and efforts to upgrade our laboratories to enable testing of bilharzia are underway. Present was Trans Nzoia County NTD Coordinator Dr. Norbert Musundi who said the county government is preparing key documents including the NTD WASH coordination framework, an anti jigger strategic plan, and a school water and sanitation plan.

Copyright Board moves to review Act to protect content creators

BY PHILIP ONYANGO (KNA)

The Government, through Kenya Copyright Board, is reviewing the country's copyright laws to keep up with the demands of the current online environment, Kenya

Copyright Board (KECOBO) Deputy Director, Sharon Chahale Wata has said.

Speaking in Siaya town, Wata said the Kenya Copyright Bill (amendment), 2026 seeks to align the protection of intellectual property with the 2010 constitution and ensure

Sharon Chahale Wata, Deputy Executive Director, Kenya Copyright Board, addressing the media.

that the country's creatives are properly protected against exploitation.

Wata, who is the Deputy Executive Director in

charge of Training and Research said the bill, which is currently undergoing public participation, provides a wide protection

on the online environment and seeks to, among other things, expand the mandate of the copyright tribunal.

"The 2010 Constitution specifically provides for protection of intellectual property and so we also want to keep up with the laws of the land," she said and urged Kenyans to visit KECOBO website and give their comments on the bill.

The Director said the Board was committed to enforcing copyright laws so that Kenyan innovators can get value for their work and urged anybody whose

work has been infringed upon to contact the organization for redress.

Addressing the occasion, KECOBO's head of human resource, Ketty Arucy challenged Kenyan content creators to observe national values while generating content.

Arucy stressed the need for the content creators to come up with materials that would promote peace and unity instead of content that glorifies social ills. She called on the content creators to manage their incomes well and invest wisely.

State injects Sh31 billion into affordable housing projects in Mombasa

President William Ruto unveils a plaque during the launch of the construction of the Makupa Mixed Use Development with a modern market. PHOTO BY ANDREW HINGA/KNA

BY SADIK HASSAN (KNA)

The Government, through the Ministry of Lands, Housing and Urban Development, has invested heavily in affordable housing projects in the Port City of Mombasa as part of efforts to spur social and economic transformation. The ambitious projects aim to strengthen Mombasa's position as the country's second capital after Nairobi and a key gateway to East Africa through the port, amid rapid urbanisation.

A total of 10,000 housing units are expected to be constructed in Nyali, Mvita, Likoni, Kisauni, Changamwe and Jomvu sub-counties under the Affordable Housing Programme.

The latest project to be launched is the Makupa Modern Mixed-Use Urban Development and associated infrastructure in Mvita Sub-County, costing Sh685 million. It involves the redevelopment of the historic 106-year-old Majengo

Market. The contractor is already on site, and the old structure has been demolished to pave the way for the redevelopment.

President William Ruto laid the foundation stone during his recent development tour of the Coast region. The project is expected to be completed within 12 months.

The re-development will transform the old market into a 13-floor mixed-use development comprising a modern market, residential units, offices, restaurants, food courts, conference and meeting rooms, a guard house, waste management facilities and a power house.

The project is a test-

ment to the government's commitment to dignifying trading areas and promoting businesses. Similar mixed-use developments are set to be implemented at Segwa and the Old Town Fish Market, both in Mvita Sub-County.

Residents were also assured that the Sh20 billion Mwache Multi purpose Dam Project will be completed within the next six months. The project is currently 83 per cent complete and is expected to significantly reduce Mombasa County's chronic water shortage.

The project aims to sustainably improve water security and build climate resilience by increasing bulk water supply and expanding access to water and sanitation services in the Coastal region.

The project is designed to include a main dam, a lower check dam and an upper check dam. The main dam, with a height of 84 metres and a crest length of 526 metres, will have a storage capacity of 127 million cubic metres of water.

BY THE NUMBERS

10,000

A total of 10,000 housing units are expected to be constructed in Nyali, Mvita, Likoni, Kisauni, Changamwe and Jomvu sub-counties under the Affordable Housing Programme.

Makonde community seek government intervention over ID registration hurdles

BY CHARI SUCHE (KNA)

Some members of the Makonde community in Kwale County are appealing to the government to ease requirements for acquiring National Identity Cards, saying many who were left-out during the community's registration and recognition process in 2016 and 2017 continue to face difficulties proving their citizenship.

The affected individuals, most of whom were minors during the historic registration exercise that culminated in the recognition of the Makonde as Kenya's 43rd tribe, say they are now unable to obtain Identity Cards due to the requirement for citizenship certificates.

Without Identity Cards, many are unable to access employment opportunities, government services, financial institutions services and higher education opportunities.

Among those affected is 27-year-old, Anna Zacharia Mushiiri, who missed the registration exercise because she was

living in Malindi at the time and was unaware of the process.

"During the registration period, I was not in Kwale. I was born in Makongeni but grew up in Malindi. By the time I learnt that members

of the community were being registered and issued documents, the exercise had already ended," she stressed adding repeated attempts to obtain a national identity card have been unsuccessful.

1. Anna Zacharia Mushiiri, a member of the Makonde community in Kwale County, narrates the challenges she has faced in obtaining a National Identity Card after missing the community registration exercise conducted during the recognition of the Makonde as Kenyan citizens.

2. Abdallah John Fundi, a footballer from the Makonde community in

Kwale County, faces difficulties accessing opportunities due to lack of a national identity card.

3. Makonde Community Chairman, Thomas Nguli, notes there are many community members who were left out during the registration process and are unable to obtain national identity cards.

PHOTOS: CHARI SUCHE

"Whenever registration officers come to the area, I try to apply but I am always asked to produce a citizenship certificate, which I do not have," she said. According to Mushiiri, even presenting documents belonging to her parents has not helped resolve the issue.

Her predicament mirrors that of many young people from the community who were underage during the registration exercise and were therefore not issued citizenship certificates.

PUBLIC NOTICE

REQUEST FOR STAKEHOLDER COMMENTS ON THE DRAFT COMPLAINTS AND INVESTIGATIONS FRAMEWORK

The Public Procurement Regulatory Authority (PPRA) is mandated under Section 9(1)(h) of the Public Procurement and Asset Disposal Act, CAP 412C to investigate and act on complaints regarding procurement and asset disposal proceedings. This mandate applies to complaints from procuring entities, tenderers, contractors, or members of the public that are not subject to administrative review.

To ensure the efficacy and timely handling of these matters, the Authority has developed The Complaints and Investigations Framework, which is available for review on our website: www.ppra.go.ke. This framework provides a comprehensive roadmap for addressing complaints and undertaking investigations within the public procurement and asset disposal system.

In line with the provisions of Article 10 of the Constitution of Kenya, 2010, regarding National Values and Principles of Governance, the Authority hereby invites all stakeholders including, suppliers and contractors, Members of the public, Public Institutions and professional associations, and other interested parties to review the Framework, and provide comments and input.

The written views and comments should be captured in the **Inputs and Comments Submission Form** available in the downloads section of the PPRA website cited above using the following link: <https://ppra.go.ke/download/stakeholder-feedback-form-on-complaints-investigations-framework/> and submitted through any of the following channels:

1. Electronically: Sent via email to: stakeholders@ppra.go.ke
2. Postal Mail: Addressed to the contact details indicated below.
3. Hand Delivery: To our offices at the address indicated below.

All submissions should reach the Authority on or before the close of business on **Friday, 26th June, 2026**.

Kenya reaffirms collaboration in Africa’s health security, medical manufacturing

BY JOSEPH NG'ANG'A (KNA)

Kenya is committed to strengthening Africa’s health security and advancing local manufacturing of health products through

enhanced collaboration with the Africa Centres for Disease Control and Prevention (Africa CDC). Principal Secretary (PS) for Medical Services, Dr. Ouma Oluga, said Kenya remains committed to supporting continental initiatives that improve access to affordable, quality, and essential health commodities.

Dr Oluga made the remarks during a courtesy call by the Africa CDC Mission on the African Pooled Procurement

Mechanism (APPM). Dr. Oluga noted that the APPM complements Kenya’s ongoing health sector reforms under the Bottom-Up Economic Transformation Agenda (BETA) and Universal Health Coverage (UHC), particularly in strengthening health financing, commodity security, digital health systems, and health workforce development. He welcomed continued collaboration with Africa CDC and other partners

in implementing pooled procurement mechanisms, strengthening supply chain resilience, and promoting local pharmaceutical manufacturing across the continent. The discussions highlighted progress in expanding vaccine and pharmaceutical manufacturing capacity in Africa, as well as opportunities to reduce procurement costs through pooled purchasing arrangements. Kenya also reaffirmed its support for the operationalisation of the APPM Memorandum of Understanding and the promotion of African-manufactured medicines, vaccines, diagnostics, and medical devices.

The Principal Secretary underscored the importance of local manufacturing in enhancing health security, creating jobs, and driving sustainable economic growth across Africa.

REQUEST FOR EXPRESSION OF INTEREST

(Consulting Services – Firms Selection)

Country:	Kenya
Name of Project:	KENYA DIGITAL ECONOMY ACCELERATION PROJECT (KDEAP)
Project No.:	P170941
Credit No:	7289-KE & 7290-KE
Assignment Title:	VULNERABILITY ASSESSMENT & PENETRATION TESTING SERVICES FOR REMEDIATION OF ECITIZEN PLATFORM
Contract No.:	KE-ICTA-526653-CS-QCBS

1. The Government of Kenya has received financing from the World Bank towards the cost of the Kenya Digital Economy Acceleration Project (KDEAP) and intends to apply part of the proceeds for consulting services.

2. The consulting services (“the Services”) include Vulnerability Assessment & Penetration Testing for Remediation of ECitizen Platform. The assignment is expected to take six (6) calendar months from the date of contract commencement.

3. The detailed Terms of Reference (TOR) for the assignment can be found at the following website: www.icta.go.ke and www.tenders.go.ke/tenders or can be obtained at the address given below.

4. The Information and Communications Technology Authority through the Program Implementation Unit (PIU) now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services. The shortlisting criteria are:

a) **Core business and years in business:** The firm must be formally registered and incorporated as a consulting firm with a core business demonstrably in cybersecurity, information security, IT governance, risk and compliance (GRC), or an equivalent field. This specialization must have been maintained for a minimum period of Eight (8) years. This extensive operational history indicates a depth of experience necessary for a project of this magnitude.

b) **Relevant experience:** The firm shall demonstrate having successfully executed and completed at least five (5) assignments of a similar nature and complexity. This includes large-scale enterprise cybersecurity remediation, projects involving government digital platforms, or critical national infrastructure. These assignments must have been completed within the last seven (7) years. Experience in a similar operating environment is crucial, as government systems often present unique bureaucratic, procurement, and political complexities that differ significantly from the private sector. Detailed information for each similar assignment, including the name and address of the client, the scope of work, value, and period of execution, must be provided with the Expression of Interest.

c) **Technical and managerial capability of the consulting firm:** The firm must demonstrate the requisite technical capacity, including access to advanced cybersecurity tools, proven methodologies, and established frameworks. Furthermore, it must exhibit strong managerial capability, evidenced by project management certifications, a robust organizational structure, and rigorous quality assurance processes, all necessary to undertake an assignment of this national significance. This demonstration should be clearly articulated in the submitted company profile(s).

Key Experts will not be evaluated at the shortlisting stage.

5. The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank’s “Procurement Regulations for IPF Borrowers” First Published July 2016 and Revised Fifth Edition September 2023 (“Procurement Regulations”), setting forth the World Bank’s policy on conflict of interest.

6. Consultants may associate with other firms to enhance their qualifications but should indicate clearly whether the association is in the form of a joint venture and/or a sub-consultancy. Kiambu records first telemedicine-assisted surgery milestone

BY COLLINS ESIKE (KNA)

Kiambu County has achieved a major milestone in healthcare innovation following the successful conduct of its

first telemedicine-assisted surgery. The breakthrough is expected to strengthen specialized medical care, training, and collaboration among health professionals across the County.

Medical personnel at Kiambu Level 5 Hospital perform the first telemedicine-assisted caesarean section. PHOTO: COLLINS ESIKE

The landmark procedure, a live Caesarean section performed at Kiambu Level 5 Hospital using the Proximie digital platform, brought together healthcare professionals from Kiambu Level 5 Hospital, Kihara Level 4 Hospital, Thika Level 5 Hospital, alongside medical experts based in the United Kingdom.

The surgery was conducted and monitored in real time through

advanced digital surgical technology, enabling specialists in different locations to observe, guide and support the procedure remotely.

According to County Executive Committee Member (CECM), Dr. Elias Maina, the Proximie platform facilitates seamless collaboration among surgeons and medical practitioners by combining high-definition video technology with interactive digital tools.

Health agency steps up Ebola response training in Trans Nzoia, Turkana

Kenya National Public Health Institute (KNPHI) staff demonstrating PPE donning and doffing practical training session.

BY JUDY SHERI (PCO)

The Kenya National Public Health Institute has intensified national Ebola preparedness efforts through a week-long Integrated Rapid Response Team (RRT) training programme conducted in Trans Nzoia County and Turkana County.

The initiative, supported by the U.S. Government-funded Strengthening Infectious Disease Detection Systems (STRIDES) programme, is part of a broader national effort to fortify frontline defenses against Ebola Virus Disease (EVD) and other public health emergencies.

The training targets counties classified as high-risk, sharpening their ability to prevent, detect and respond to outbreaks.

It brings together a multidisciplinary mix of epidemiologists, clinicians, laboratory experts, logisticians, risk communication specialists and psychosocial support professionals. The goal is

to build a skilled workforce capable of mounting rapid, coordinated responses when disease threats emerge.

Participants are immersed in both theory and practice in a bid to gain expertise in surveillance, screening, case investigation, contact tracing, infection prevention and control, risk communication and outbreak coordination.

Practical sessions simulate real-world emergencies, covering the safe use of personal protective equipment, patient triage, sample collection, isolation procedures, dignified burials and the safe transportation of suspected Ebola cases. These exercises are designed to

The training targets counties classified as high-risk, sharpening their ability to prevent, detect and respond to outbreaks.

ensure that responders can act swiftly and safely under pressure. Speaking during the training, Trans Nzoia County Executive Committee Member for Health and Sanitation, Christopher Kerio Lorot, underscored the county's commitment to strengthening preparedness.

Lorot highlighted investments in workforce development, rapid response capacity, and sustainable emergency systems as critical pillars of resilience.

Dr. Babu Kisiangani, Trans Nzoia County Director of Health, praised KNPHI for spearheading a proactive campaign that aligns with global best practices while keeping communities at the center of disease prevention and response.

Trans Nzoia's proximity to Uganda, coupled with significant cross-border movement, places it among the counties most vulnerable to Ebola. While Kenya has not recorded any confirmed Ebola case, vigilance remains high.

Migori farmers receive 42,000 Hass avocado seedlings to boost incomes

BY WENDY MERRYL AND FAITH OPAR (KNA)

The National Government, in collaboration with the Migori County Government, has distributed 42,000 grafted Hass avocado seedlings to farmers across Migori County.

The initiative is aimed at boosting household incomes, expanding export-oriented agriculture, and supporting the government’s 15 billion trees growing programme.

Speaking during the distribution held at the Migori County Commissioner’s residence, County Commissioner, Kisilu Mutua, said the county had received 42,000 avocado seedlings and 100,000 coffee seedlings from the Ministry of Agriculture, with additional macadamia seedlings expected in the near future.

Mutua noted that each farmer would receive ten grafted avocado seedlings and that farmers had already undergone training by crop officers on proper planting, management and access to extension services.

“Every farmer has been taught how to plant these seedlings and how to reach extension officers who can assist them in managing the crop,” said Mutua.

He added that each seedling costs approximately Sh444, translating to nearly Sh20 million invested by the government in the project.

The administrator assured farmers that if properly managed, each avocado tree could generate up to Sh10,000 annually after five years, significantly improving

Migori County Commissioner Kisilu Mutua carrying one of the 42,000 grafted avocado seedlings ready for distribution to farmers in Migori County. PHOTO: MARGARET VANJELYN

household livelihoods.

The County Commissioner further revealed that two farmer groups had also received milk coolers worth Sh4.5 million to support dairy farming and value addition.

Migori County Executive Committee (CEC) Member for Agriculture, Livestock, Fisheries and Blue Economy, Lucas Mosenda, said avocado farming had become one of Kenya’s major export opportunities and the county was keen

BY THE NUMBERS

Sh4.5m

The County Commissioner further revealed that two farmer groups had also received milk coolers worth Sh4.5 million to support dairy farming and value addition.

on ensuring local farmers benefit from the growing international demand.

“We are looking at crop diversification so that farmers from Migori can tap into export opportunities and improve their incomes,” said Mosenda.

He observed that Migori currently has about 300 acres under avocado farming, with an estimated 600 to 700 farmers actively practicing the crop across the county.

The official regretted that most farmers still grow traditional avocado varieties which fetch lower returns and have limited export value.

“Unfortunately, most farmers have been growing the local varieties which are important but have low market value internationally. Hass avocado targets the export market and offers better returns to farmers,” he explained.

Meru residents targeted for one million avocado tree planting

BY DICKSON MWITI (KNA)

The Principal Secretary for Forestry, Gitonga Mugambi, has launched a campaign in Mitunguu/Nkuene Sub-County, Mitunguu/Nkuene Sub-County, aimed at encouraging residents to plant one million avocado trees to improve their livelihoods.

The initiative seeks to enhance household incomes and promote sustainable agricultural livelihoods through large-scale avocado farming in Meru

County. Mugambi called on farmers in the region and across the country to embrace avocado farming, describing the crop as a major avenue for wealth creation due to the growing demand in international markets.

Speaking during the seedlings distribution exercise, the PS said Kenya had secured access to lucrative avocado markets in China and Japan through trade engagements spearheaded by President William Ruto’s government and locals

should have a share in this. “We want avocado farming to create more wealth for our farmers. When President Ruto and I visited China and Japan, we secured access to huge markets for our produce. We now need to increase production to take advantage of those opportunities,” said Mugambi.

He said he will take the responsibility of sourcing for the quality avocado trees for the residents and theirs will only be to plant and nurture them.

MINISTRY OF INTERIOR AND NATIONAL ADMINISTRATION OFFICE OF THE CABINET SECRETARY

PUBLIC NOTICE

CALL FOR PUBLIC PARTICIPATION AND SUBMISSION OF COMMENTS ON THE DRAFT PREVENTION OF TERRORISM (IMPLEMENTATION OF THE UNITED NATION SECURITY COUNCIL RESOLUTIONS ON THE SUPPRESSION OF TERRORISM) REGULATIONS, 2026

The Ministry of Interior and National Administration (hereinafter “the Ministry”) has developed the draft Prevention of Terrorism (Implementation of the United Nations Security Council Resolutions on the Suppression of Terrorism) Regulations, 2026 (hereinafter “the draft Regulations”). The draft Regulations aim to align Kenya’s domestic regime with international best practice on combatting terrorism and terrorism financing. The draft Regulations can be found on the website of the Ministry and the Financial Reporting Centre at www.interior.go.ke and www.frc.go.ke respectively.

Pursuant to the requirements in Article 10(2) of the Constitution of Kenya, 2010, the Ministry is undertaking public participation on the draft Regulations and hereby invites members of the public to participate in town hall meetings as follows:

DATE	CLUSTER OF COUNTIES	VENUE	TIME
Monday June 22, 2026	NYERI Nyeri, Murang’a, Kirinyaga, Embu	Nyeri Cultural Centre	9:00 A.M – 1:00 P.M
Monday June 22, 2026	NAKURU Nakuru, Laikipia, Nyandarua, Baringo Narok, Samburu	Egerton University - Njoro	9:00 A.M – 1:00 P.M
Wednesday June 24, 2026	GARISSA Garissa, Isiolo, Wajir Mandera, Meru, Tharaka Nithi, Marsabit	Government Guest House – Garissa	9:00 A.M – 1:00 P.M
Wednesday June 24, 2026	KISUMU Kisumu, Siaya, Vihiga, Kericho, Kisii, Migori, Homabay, Nyamira, Bomet, Kakamega, Busia, Bungoma	Kisumu Hotel	9:00 A.M – 1:00 P.M
Friday June 26, 2026	NAIROBI Nairobi, Kiambu, Kajiado, Makueni, Machakos, Kitui	Kenyatta International Conference Centre	9:00 A.M – 1:00 P.M
Monday June 29, 2026	ELDORET Uasin Gishu, Nandi, Elgeyo Marakwet, Trans Nzoia, West Pokot, Turkana	Eldoret Polytechnic – Eldoret	9:00 A.M – 1:00 P.M
Monday June 29, 2026	MOMBASA Mombasa, Kwale, Kilifi, Lamu, Taita Taveta, Tana River	Mombasa Beach Hotel	9:00 A.M – 1:00 P.M

The Ministry has authorized the Financial Reporting Centre to coordinate the public participation exercise and accordingly invites stakeholders and members of the public to submit any comments on the draft Regulations in the prescribed format as follows:

REGULATION/ CLAUSE	ISSUES OF CONCERN	JUSTIFICATION	RECOMMENDATION

The comments, views, representations and any written memoranda may be forwarded to MEKenya@frc.go.ke or by hand delivery to the Financial Reporting Centre at 13th Floor, Old Mutual Towers, Upper Hill on or before 5:00 pm on Friday 19th June, 2026.

Hon. Kipchumba Murkomen, EGH
CABINET SECRETARY

DECLARATION OF VACANCIES

The **Social Health Authority (SHA)** is a State Corporation established under the **Social Health Insurance Act, 2023** and mandated to provide financial risk protection for Kenyan residents by facilitating equitable access to quality healthcare. SHA is responsible for administering the Social Health Insurance Fund, Primary Healthcare Fund, and Emergency, Chronic, and Critical Illness Fund in collaboration with stakeholders.

PART A: NOTICE OF CANCELLATION

The Social Health Authority (SHA) wishes to notify the general public and all prospective candidates that the advertisement for the following position, as previously published in the vacancy notice dated **18th November, 2025**, has been **CANCELED**:

S/NO	DESIGNATION	SHA GRADE	NO OF POSITIONS	STATUS
1	Office Administrator II	8	54	CANCELED

PART B: DECLARATION OF VACANCIES

To enhance institutional capacity and deliver on its mandate, the SHA Board seeks to recruit visionary, result-driven, and experienced professionals for the following positions.

ADVERTISEMENT

S/NO	DESIGNATION	SHA GRADE	NO OF POSITIONS
1	Administration Officer I	7	47
2	Senior Assistant Office Administrator	6	7

To access full advertisement, including detailed job descriptions, core functions, and person specifications, kindly visit the SHA website at <https://recruitment.sha.go.ke/>

APPLICATION REQUIREMENTS

Applicants must satisfy the requirements of Chapter Six of the Constitution of Kenya by submitting valid and current copies of the following:

- 1. Certificate of Good Conduct from the Directorate of Criminal Investigations.
- 2. Tax Compliance Certificate from the Kenya Revenue Authority.
- 3. Clearance Certificate from the Higher Education Loans Board (HELB).
- 4. Clearance Certificate from the Ethics and Anti-Corruption Commission (EACC).
- 5. Report from a Credit Reference Bureau (CRB).

HOW TO APPLY

Interested candidates should submit their applications, including:

- A detailed curriculum vitae.
- Copies of academic and professional certificates.
- A cover letter demonstrating suitability for the position.
- Contacts of at least three professional referees.

Applications should be addressed to:

The Chairperson
Social Health Authority
P.O. Box 30443-00100
Ragati Road
NAIROBI

Applications can be submitted online on <https://recruitment.sha.go.ke/> or physically delivered to SHA building 10th floor by clearly marking the position applied for on the envelope.

DEADLINE

All applications must be received by **5:00 PM, 30th June, 2026**.

TERMS OF SERVICE

The successful candidate shall be appointed on a permanent and pensionable terms in accordance with the Authority's policies.

REMUNERATION

A competitive remuneration package as advised by the Salaries & Remuneration Commission (SRC) will be offered to the successful candidate.

SHA is an equal opportunity employer committed to diversity and gender equality. Canvassing will lead to automatic disqualification. Only shortlisted candidates will be contacted.

MINISTRY OF INVESTMENTS, TRADE
AND INDUSTRY (MITI)

STATE DEPARTMENT FOR INVESTMENT PROMOTION (SDIP)

REQUEST FOR EXPRESSIONS OF INTEREST (ROEI)
(CONSULTING SERVICES – FIRMS SELECTION)

COUNTRY :	KENYA
NAME OF PROJECT :	KENYA JOBS AND ECONOMIC TRANSFORMATION PROJECT
ASSIGNMENT TITLE :	CONSULTANCY FOR SYSTEMS INTEGRATION AND API DEVELOPMENT BETWEEN THE KENYA INVESTMENT SINGLE WINDOW (KISW) AND PARTNER AGENCIES AND COUNTIES FOR THE DIGITAL ONE-STOP-CENTRE (OSC) IMPLEMENTATION
LOAN/CREDIT NO :	7450-KE
REFERENCE NO :	KE-SDIP-554976-CS-QCBS

1. The Government of Kenya (GoK) has received financing from the World Bank towards the cost of the Kenya Jobs and Economic Transformation (KJET) Project and intends to apply part of the proceeds for consulting services
2. The consulting services involve systems integration and API development for the Kenya Investment Single Window (KISW) of the Kenya Investment Authority (InvestKenya) to support the implementation of the Digital One Stop Centre (DOSC), a unified digital platform that consolidates investor services from multiple government agencies and counties.
3. The DOSC aims to simplify investment facilitation, improve transparency, and reduce the time and cost of starting and operating a business in Kenya. A key component of the project is integrating DOSC with agency and county systems to enable investors to register companies, fulfill employer requirements, obtain sectoral and county investment permits, and eliminate manual duplication and verification processes across institutions.
4. The detailed Terms of Reference (TOR) for the assignment can be found at the following website: www.investmentpromotion.go.ke.

5. The **MINISTRY OF INVESTMENTS, TRADE AND INDUSTRY, STATE DEPARTMENT FOR INVESTMENT PROMOTION (SDIP)** now invites eligible consulting firms ("Consultants") to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to provide the services. The shortlist criteria are:

- Minimum 10 years' experience in large-scale systems integration in the public sector.
- Proven experience in API design, enterprise service buses (ESB), and cloud integration frameworks.
- Demonstrable work on multi-agency or government-to-government (G2G) integration assignments.
- Core Business and Years of Experience

The firm shall be legally registered and have core business in ICT systems integration, software development, or related fields - Minimum of ten (10) years of relevant experience

• Relevant Experience

Demonstrated experience in at least two (2) assignments of similar nature, scope, and complexity in the last ten (10) years, involving:

- Systems integration and interoperability solutions
- API design and development
- Multi-institutional or government-to-government (G2G) integration (Details of assignments should include client name, scope, value, and duration.)

• Technical and Managerial Capability

Demonstrated technical and organizational capacity to undertake the assignment, including availability of appropriate tools, systems, and methodologies

• Additional/Desirable Experience

- Experience in assignments financed by development partners
- Experience in multi-stakeholder environments

Key Experts will not be evaluated at the shortlisting stage

6. The attention of interested Consultants is drawn to section III paragraph 3.14, 3.16, 3.17 of the World Bank's "Procurement Regulation for IPF Borrowers" September 2023 ("Procurement Regulations"), setting forth the World Bank's Policy on conflict of Interest.

7. Consultant may associate with other Firms to enhance their qualification but should indicate clearly whether the association is in form of joint venture and/or a sub-consultancy. In the case of a joint venture, all partners in the joint venture shall be jointly and severally liable for the entire contract, if selected.

A Consultant will be selected in accordance with the Quality Cost Based Selection method set out in the Procurement Regulations.

8. Further information may be obtained from the **MINISTRY OF INVESTMENTS, TRADE AND INDUSTRY, STATE DEPARTMENT FOR INVESTMENT PROMOTION (SDIP) Offices at NSSF P.O BOX -30057-00100 Building, Block 'A' Eastern Wing, 12th floor, Bishop Road, Nairobi Kenya from 8:00am to 5:00 pm East African Time (EAT)**

9. Expressions of interest must be delivered in a written form to the address below (in person, or by e-mail): kjetsdip@gmail.com or Kjetprocurement@investmentpromotion.go.ke **OR: be submitted physically deposited in the Tender Box located on 12th Floor, Social Security House, NSSF Building Block 'A' Eastern Wing, Bishop Road, Capitol Hill, Nairobi, Kenya. In plain sealed envelope clearly marked at the above address and must be received by 24th June 2026 by 10:00 AM East African Time and be clearly Marked "Expression of Interest for System Integration and API development for Digital One- Stop-Centre Implementation" Kenya Jobs and Economic Transformation (KJET) Project Ref: KE- SDIP-554976-CS-QCBS and addressed to.**

State Department for Investment Promotion, Kenya Jobs and Economic Transformation (KJET) Project PROJECT-DIRECTOR (KJET)
P.O BOX -30057-00100, NSSF Building, Block 'A' Eastern Wing, 12th floor, Bishop Road, Nairobi Kenya.
Tel: +254-0202731531-9
Email: kjetsdip@gmail.com or Kjetprocurement@investmentpromotion.go.ke

10. Deadline for Submission of Expression of Interest is Wednesday 24th June 2026 at 10:00am East Africa time

Note: Late Submission will not be accepted

FEATURE: WEAVING A NEW PATH

How telecommunications engineer turned traditional weaving into a thriving cultural enterprise

BY PAMELLA DOROTHY (KNA)

When Sheila Atieno Onyango trained as a telecommunications engineer, she never imagined her career would eventually centre on traditional weaving, artisan networks and cultural preservation. Today, however, the founder of Okapu is at the helm of a growing cultural enterprise that blends heritage, craftsmanship and community empowerment—demonstrating that traditional skills can be transformed into viable, modern livelihoods. Her journey began in the renewable energy

sector, where she worked on infrastructure projects across rural Kenya. Part of her role involved engaging communities affected by transmission lines and energy developments, helping them understand technical projects in practical terms. Looking back, Sheila says those experiences laid the foundation for her current work. “That job prepared me for what I’m doing now. We were constantly interacting with rural communities, and that experience shaped how I connect with people today,” she says. The idea for Okapu, she says emerged unexpectedly. While working in Nairobi,

Sheila bought a kiondo bag from a roadside vendor near her office in Karen and shortly afterwards, a friend admired the bag and asked to buy it. “I didn’t even think about making a profit. I just gave it to her and bought another one for myself,” she recalls. Soon, more friends began requesting similar bags prompting her to start posting them on Instagram. “I realized people loved them—not just the bags themselves, but how they were styled and presented,” she says. What began as casual reselling soon evolved into something deeper. Curious about the origins of the products, she started asking who actually made them.

Sheila Atieno Onyango (squatting in black t-shirt) poses for a photograph with some of the women she works with. PHOTO: PAMELLA DOROTHY

The answer took her beyond Nairobi’s retail markets and into rural artisan communities. A turning point came when

a colleague revealed that her aunt was one of the women weaving the bags Sheila had been selling. “That changed everything. I had been searching for the people who actually make them. In Nairobi, you mostly meet the sellers, not the source,” she says.

Mau Forest restoration gains momentum as marathon is launched

BY IAN CHEPKUTO (KNA)

The Government has intensified efforts to restore the Mau Forest Complex, Kenya’s largest water tower, with the launch of the Second Edition of the Mau Conservation Marathon. The race is scheduled for July 3, 2026, and will be held under the Mau Forest Complex Integrated Conservation and Livelihood Improvement Programme (MFC-ICLIP), a ten-year initiative aimed at reversing decades of degradation in the country’s most important forest ecosystem. The Marathon is a flagship initiative spearheaded by the Ministry of Environment, Climate Change and Forestry, aimed at mobilizing resources, creating environmental awareness, and supporting community livelihoods through conservation efforts. Approximately 500 athletes so far have registered for the event dubbed; “Linda Mau, Boresha Maisha”, with organizers targeting 2,500 participants before registration closes on June 25, 2026. Speaking during a media briefing in Nairobi, Environment and Climate Change Principal Sec-

Environment and Climate Change Principal Secretary, Dr. Eng. Festus Ng’eno, addresses the media during the launch of the Second Edition of the Mau Conservation Marathon in Nairobi. PHOTO: IAN CHEPKUTO/KNA)

retary, Dr Eng. Festus Ng’eno, urged Kenyans, institutions, and corporate organizations to support the initiative by participating in the race. The PS said the race will be flagged-off in Olen-guruone, Kuresoi South, and traverse the scenic Mau landscape before finishing at Baringo Senior Secondary School grounds in Kuresoi North. “The Mau Forest Complex supports millions of livelihoods, sustains agriculture, provides water for hydro-power generation, and is the source of 12 major rivers including Sondu, Mara, Ewaso- Ng’iro, Nzoia among others and also supports major lakes including; Turkana, Baringo, Nakuru, Natron

and Victoria,” highlighted Dr. Ng’eno. He regretted that the ecosystem continues to face threats from illegal logging, land-use changes, and overreliance on forest resources driven largely by poverty. “The ecosystem has faced significant degradation and remains threatened by changes of land use” said PS. As a native of the Mau region, the PS said, he has personally witnessed the degradation of the ecosystem and has since joined forces with local communities, development partners, the private sector, and government agencies, to establish the MFC-ICLIP programme.

Youth, Female, Persons with disabilities (PWD), and marginalized community candidates are encouraged to apply. Canvassing is discouraged and will lead to disqualification. ONLY SHORTLISTED CANDIDATES WILL BE CONTACTED.

Kenya takes leadership of Sub-Saharan Africa skills network

BY JOHN NDEGWA (PCO)

Kenya has been elected to chair the Sub-Saharan Africa Skills and Apprenticeship Stakeholders Network (SASASNET), following a unanimous vote that saw Principal Secretary for Labour and Skills Development Shadrack Mwadime selected as Continental Chair during the network's Annual General Meeting held in Abuja, Nigeria.

The election reflects growing recognition of Kenya's leadership in skills development and apprenticeship reforms across the continent.

Delegates from member countries endorsed Mwadime to steer the regional body as it advances quality apprenticeship systems and workforce development initiatives across Sub-Saharan Africa.

Kenya's delegation to the conference was led by Dr. Wanjiru Kariuki, Secretary for Skills Development in the Ministry of Labour and Social Protection, and included Wambua Nyamai, Chief Executive Officer of the Kenya National Federation of Jua Kali Associations.

As Continental Chair, Mwadime is expected to champion stronger collaboration among Sub-Saharan African countries in advancing quality apprenticeships in line with International Labour Organization Recommendation 208, which provides a global framework for apprenticeship systems that are inclusive, demand-driven and anchored in decent work.

Further, his election signals renewed momentum toward strengthening apprenticeship programmes across Africa, ensuring that skills development remains industry-responsive and aligned with the continent's broader socio-economic transformation agenda. It also positions Kenya at the forefront of efforts to promote structured apprenticeships and accelerate the formalization of the informal economy.

Speaking on the significance of the election, Dr. Kariuki noted that Kenya's elevation to the continental leadership role is underpinned by several key policy achievements.

These include the National Work-Based Learning Policy, which promotes the transition from informal apprenticeships to quality apprenticeship systems; the National Policy on Recognition of Prior Learning (RPL), through which 48,383 individuals have already been certified by formally recognizing skills acquired through informal learning and apprenticeship pathways; and the National Strategy for Transformation of the Informal Economy, aimed at progressively integrating the informal sector where nearly 84 percent of Kenya's labour force is engaged into a sustainable formal economy that supports decent work, improved livelihoods and inclusive economic growth.

The Annual General Meeting coincided with SASASNET's Third Regional Conference, which brought together ministers responsible for labour, senior government officials, representatives of the informal sector, development partners, and international governmental and non-governmental organizations from across the continent.

According to Dr. Kariuki, the conference built on the momentum generated by the Second Regional Conference held in Mombasa in 2025, which attracted participants from 24 countries and culminated in the landmark Mombasa Declaration, a key framework for advancing apprenticeship and skills development reforms across Africa.

High level Ministerial panel session during the 3rd annual regional conference of Sub-Saharan Africa skills and Apprenticeship Stakeholders Network in Abuja, Nigeria. Dr. Wanjiru Kariuki (second Left) from the State Department for Labour and Skills Development represented Kenya.

ATHI WATER WORKS DEVELOPMENT AGENCY(AWWDA)

PROJECT NAME:

NAIROBI WATER AND SANITATION PROJECT

Credit No. CKE 1135 01H

REQUEST FOR EXPRESSION OF INTEREST

FOR
CONSULTANCY SERVICES FOR SUPERVISION OF WORKS FOR NORTHERN COLLECTOR TUNNEL (NCT)
LAST MILE WATER SUPPLY WORKS AND PERFORMANCE IMPROVEMENT OF BIOCENTRES

REOI NO: AWWDA/AFD/NWSP/CS-11/2026

- The Athi Water Works Development Agency, a state corporation under the Ministry of Water, Sanitation and Irrigation (MWS&I), has received financing from Agence Française de Développement ("AFD"), towards the cost of the Nairobi Water and Sanitation Project, and intends to use part of the funds thereof for payments under the following services: Consultancy Services for Supervision of Works for Northern Collector Tunnel (NCT) Last Mile Water Supply Works and Performance Improvement of Biocentres Contract No. **AWWDA/AFD/NWSP/CS-11/2026**.
- The Services of the consultant shall consist of the following:
 - supervision of the NCT last mile water supply works,
 - To fulfill the role of the Engineer's Representative and supervise the works, in accordance with the Conditions of Contract, Specifications and Drawings;
 - Undertake validation and implementation of the Resettlement Action Plan and (RAP) Livelihood Restoration Plan (LRP)
 - Supervise the contractor's implementation of the Construction Environmental and Social Management Plan (CESMP)
 - The Consultant will be responsible for quality, cost, time control, design reviews and ensuring that work is carried out in accordance with the designs, specifications and works Contract documents while at all-time ensuring quality, cost effectiveness, compliance with legal and other requirements; and timely completion.
 - To provide the Client with regular status reports and other reports as per the Terms of Reference, together with all related necessary technical assistance and professional advice to the Client related to design and supervision of the construction of the said works.
 - Performance improvements of the biocentres,
 - Strengthen the governance and leadership capacities of Community-Based Organizations (CBOs) managing the biocentres and work on developing processes to ensure consistent service quality.
 - Improve the economic and financial sustainability of the Biocentres
 - Improve access to clean water within the biocentres.
 - Promote menstrual hygiene management (MHM).
 - Enhance the participation of women and youth in CBO governance.
 - Facilitate the review and amendment of the existing Memorandum of Understanding (MoU) between NCWSC and CBOs.
 - Establish an effective monitoring and evaluation framework to track outcome, performance and long-term impact of the biocentres
 - Enhance Biogas production and usage within the community
- The Athi Water Works Development Agency hereby invites Applicants to express their interest in delivering the Services described above. This Request for Expressions of Interest is open to: Consultant Firms
- Eligibility criteria to AFD financing are specified in sub-clause 1.3 of the **"Procurement Guidelines for AFD Financed Contracts in Foreign Countries"**, available online on AFD's website: <http://www.afd.fr>.
- In order to confirm eligibility for AFD financing, interested firms shall submit (as part of the expression of interest) a duly signed 'statement of integrity' which is appended to this REOI and can be downloaded from www.awwda.go.ke
- The Applicant shall submit only one application, either in its own name or as a member of a Joint Venture (JV). If an Applicant (including any JV member) submits or participates in more than one application, those applications shall be all rejected. However, the same Subconsultant may participate in several applications. If the Applicant is a JV, the expression of interest shall include:
 - a copy of the JV Agreement entered into by all members,
 - or
 - a letter of intent to execute a JV Agreement, signed by all members together with a copy of the Agreement proposal,

In the absence of this document, the other members will be considered as Subconsultants. Experiences and qualifications of Subconsultants are not taken into account in the evaluation of the applications.

The attention of interested consultants is drawn to paragraph 1.2.3 of AFD's Procurement Guidelines, setting forth AFD's policy on conflict of interest.

- Interested Applicants must provide information evidencing that they are qualified and experienced to perform those Services. For that purpose, documented evidence of recent and similar services shall be submitted demonstrating:-
 - Presentation of the Consultancy firm: general presentation, scope of activities, financial data (sales figure, etc.) for the past 3 years, description of human resources, organogram, etc.
 - Similarity of the experiences based on:
 - The contracts size;
 - The nature of the Services;
 - The location: Experience in East Africa in the water sector feasibility studies, design and works supervision of water supply systems during the last 10 years
 - Experience in developing governance, monitoring and evaluation frameworks for sustainable utility management of community based WASH facilities
 - Experience in donor funded projects.
 - Availability of the technical expertise: Presence of appropriate skills among staff. The Consultant will provide information (sample CVs or synopsis) for potential involvement of following staffs (not limited to), bearing in mind that other individuals may be presented at bidding stage:

Team Leader
Resident Engineer
Deputy Resident Engineer
Governance Expert
Environmental Health and Safety Expert
Sociologist/Community Development Expert
Financial Expert
Engineering Surveyor
Land Economist/Valuer

Permanent staff of the Consulting firm will be favored for Key Staff. Potential backstopping support should also be described.

- Quality assurance procedures and certifications of the Applicant (ISO 9001 and/or environmental and social certification)
- Among the submitted applications, Athi Water Works Development Agency will shortlist a maximum of six (6) Applicants, to whom the Request for Proposals to carry out the Services shall be sent. A Consultant will be selected in accordance with the Quality and Cost Based Selection (QCBS) method set out in the Procurement Guidelines.
- Expressions of interest must be delivered in written form to the address below in person (hardcopy and flash disk) or by email (in PDF format, maximum size 15MB) no later than **7th July 2026 at 1200 hours East African Time**; clearly marked **"Expression of Interest for Consultancy Services for for Supervision of Works for Northern Collector Tunnel (NCT) Last Mile Water Supply Works and Performance Improvement of Biocentres Contract No. AWWDA/AFD/NWSP/CS-11/2026"**. Acknowledgement of receipt of applications received by email will be provided.
- Interested Applicants may obtain further information at the address below during office hours from 0800 to 1700 hours from Monday to Friday excluding lunch hour (1300 to 1400 hours and public holidays).

Ministry steps up fight against teenage pregnancies, HIV among youth

BY SADIK HASSAN (KNA)

The Ministry of Health has reiterated its commitment to addressing the rising cases of teenage pregnancies and HIV infections among young people by strengthening investment in comprehensive sexuality education and reviving community-based prevention programmes that have been weakened by cuts in donor funding.

Speaking in Mombasa during the opening of the 9th RHNK Pan-African Adolescent and Youth SRHR Scientific Conference, the Ministry of Health Head of Family Health Department, Dr Bishar Issak, said healthcare workers will be trained to provide adolescent-friendly services and ensure young people have access to medicines, commodities and essential health tools at nearby health facilities.

In 2025, Dr Issak disclosed that 41 per cent of new HIV infections in Kenya were among adolescents aged between 15 and 24 years, while mother-to-child transmission rose from 7.3 per cent to 9 per cent.

“In Garissa, just 15 per cent of adolescent girls have comprehensive HIV knowledge. Only 26 per cent of adolescent girls nationally have known that a condom prevents HIV transmission. These are not gaps in statistics; there are gaps in survival,” said Dr Isaak.

He disclosed that teenage pregnancies remain one of the country’s most pressing public health challenges, noting that nationally, 15 per cent of girls aged between 15 and 19 years are either pregnant or already mothers.

“In counties like Samburu, that figure rises to 50 per cent. This is a show of inequality and equity. In West Pokot, that number represents 36 per cent. This number represents girls whose dreams have been interrupted, shattered, whose bodies have been asked to carry responsibilities they were not ready for and whose future depends entirely on whether the systems around them are strong enough to hold them,” he noted.

In Kenya, he said, young women have access to free maternal healthcare under Taifa Care, which is being administered through the Social Health Authority (SHA), but emphasised the need to prioritise the prevention of teenage pregnancies.

Dr Issak highlighted that more than 30 million Kenyans have been registered under SHA to access free primary healthcare.

ATHI WATER WORKS DEVELOPMENT AGENCY(AWWDA)

PROJECT NAME:	NAIROBI WATER AND SANITATION PROJECT
Credit No. CKE 1135 01H	

REQUEST FOR EXPRESSION OF INTEREST

FOR

CONSULTANCY SERVICES FOR TECHNICAL ASSISTANCE FOR THE OPTIMIZATION OF ATHI WATER WORKS DEVELOPMENT AGENCY (AWWDA) BULK WATER OPERATIONS

1. The Athi Water Works Development Agency, a state corporation under the Ministry of Water, Sanitation and Irrigation (MWS&I), has received financing from Agence Française de Développement (“AFD”), towards the cost of the Nairobi Water and Sanitation Project, and intends to use part of the funds thereof for payments under the following services: **Consultancy Services for Technical Assistance for the Optimization of Athi Water Works Development Agency (AWWDA) Bulk Water Operations Contract No. AWWDA/AFD/NWSP/CS-07/2026**

2. The Services of the consultant shall consist of the following:
The selected consultant will be expected to support AWWDA in achieving the following key objectives :

a) **Organisation Structure Design** - Review existing organization structure and propose a structure that supports the Agency in efficiently and effectively discharging its mandate including technical and commercial requirements of a bulk water utility.

b) **Operational Excellence:** Streamline processes, optimize workflows, and enhance the utilization of human, financial, and technological resources to ensure effective service delivery and sustainable bulk water operations through an assessment of gaps within the directorate and the institution as a whole, including the development and institutionalization of hydraulic modelling tools and the standardization and integration of SCADA systems to support real-time monitoring, operational optimization, and data-driven decision-making.

c) **Sustainability** : To ensure financial viability through optimized Non-Revenue Water (NRW) management and tariff modelling, supported by accurate hydraulic analysis, improved system visibility, energy efficiency measures and strengthened operational data systems.

d) **Capacity Building** : To bridge the internal skills gap in utility operations, asset management, commercial services, hydraulic modelling and SCADA system management for bulk water services.

Expected outcomes of the Technical Assistance
The Technical Assistance is expected to result in measurable institutional, operational, commercial, and digital improvements in AWWDA as a whole including bulk water operations. At the completion of the assignment, the following outcomes should be achieved :

a) Reduction in operational downtime and improved reliability of bulk water infrastructure.

b) Establishment of a comprehensive digital asset registry covering 100% of bulk water infrastructure.

c) Operational asset management framework developed, implemented and linked to maintenance planning and capital investment prioritisation.

d) Development of end to end digital billing platform linked to smart meter data, automated invoice generation, payment tracking and collection efficiency dashboards.

e) Automated and integrated bulk billing and revenue collection system fully operational, with all bulk supply invoicing and reconciliation processed through the system.

f) Bulk water balance and NRW monitoring framework established and operationalised.

g) GIS-based asset mapping platform developed, operational and integrated with asset management and hydraulic modelling systems.

h) Hydraulic Modelling platform developed, operational and integrated with the GIS asset mapping and asset management system.

i) Smart meters installed, SCADA system developed and integrated into a centralised monitoring platform for real-time decision making together with the hydraulic model of the transmission pipelines

j) Energy performance baseline established and energy efficiency improvement measures identified for implementation

k) Institutional structure reviewed and recommendations made for clearly defined roles, reporting lines, and performance accountability.

l) Water Safety Plans developed, approved, and integrated into operational procedures.

m) Strengthened internal capacity within AWWDA to independently manage bulk utility operations beyond the TA period.

n) Bulk water operations business plan developed and operationalized

o) AWWDA strategic plan 2028- 2032 developed

3. The Athi Water Works Development Agency hereby invites Applicants to express their interest in delivering the Services described above. This Request for Expressions of Interest is open to: Consultant Firms

4. Eligibility criteria to AFD financing are specified in sub-clause 1.3 of the “**Procurement Guidelines for AFD Financed Contracts in Foreign Countries**”, available online on AFD’s website: <http://www.afd.fr>.

5. In order to confirm eligibility for AFD financing, interested firms shall submit (as part of the expression of interest) a duly signed ‘statement of integrity’ which is appended to this REOI and can be downloaded from www.awwda.go.ke

6. The Applicant shall submit only one application, either in its own name or as a member of a Joint Venture (JV). If an Applicant (including any JV member) submits or participates in more than one application, those applications shall be all rejected. However, the same Subconsultant may participate in several applications. If the Applicant is a JV, the expression of interest shall include:

- a copy of the JV Agreement entered into by all members,

or

- a letter of intent to execute a JV Agreement, signed by all members together with a copy of the Agreement proposal, In the absence of this document, the

other members will be considered as Subconsultants. Experiences and qualifications of Subconsultants are not taken into account in the evaluation of the applications.

The attention of interested consultants is drawn to paragraph 1.2.3 of AFD’s Procurement Guidelines, setting forth AFD’s policy on conflict of interest.

7. Interested Applicants must provide information evidencing that they are qualified and experienced to perform those Services. For that purpose, documented evidence of recent and similar services shall be submitted demonstrating:-

a. Presentation of the Consultancy firm: general presentation, scope of activities, financial data (sales figure, etc.) for the past 3 years, description of human resources, organigram, etc.

b. Similarity of the experiences based on:

• The contracts size;

• The nature of the Services;

• The location: Experience in in the water sector operations of bulk water and sewerage systems during the last 15 years;

• Experience in Organisations design, performance improvement, GIS, Hydraulic modelling, SCADA integration, Financial, Environmental, Social, Health and Safety Audits and capacity building;

c. Experience on donor funded projects Consultant must have at least two references with AFD in Sub-Saharan Africa.

d. Availability of the technical expertise: Presence of appropriate skills among staff. The Consultant will provide information (sample CVs or synopsis) for potential involvement of following staffs (not limited to), bearing in mind that other individuals may be presented at bidding stage:
Permanent staff of the Consulting firm will be favored for Key Staff. Potential backstopping support should also be described.

e. Quality assurance procedures and certifications of the Applicant (ISO 9001 and/or environmental and social certification)

8. Among the submitted applications, Athi Water Works Development Agency will shortlist a maximum of six (6) Applicants, to whom the Request for Proposals to carry out the Services shall be sent. A Consultant will be selected in accordance with the Quality and Cost Based Selection (QCBS) method set out in the Procurement Guidelines.

9. Expressions of interest must be delivered in written form to the address below in person (hardcopy and flash disk) or by email (in PDF format, maximum size 15MB) no later than **7th July 2026 at 1200 hours East African Time**; clearly marked “**Consultancy Services for Technical Assistance for the Optimization of Athi Water Works Development Agency (AWWDA) Bulk Water Operations Contract No. AWWDA/AFD/NWSP/CS-07/2026**”. Acknowledgement of receipt of applications received by email will be provided.

FEATURE: TOBACCO CONTROL AMENDMENT BILL

Health advocates warn of tobacco industry tactics amid push for new law

BY VIOLET OTINDO

Public health advocates and government officials have intensified calls for the urgent enactment of the Tobacco Control Amendment Bill, 2024. They have also raised concern over aggressive tactics by the tobacco industry aimed at derailing the proposed law.

Speaking during the national celebrations for World No Tobacco Day 2026 held at Umuu Grounds in Mbeere South Sub-County, Embu County, stakeholders warned that the industry is actively mobilising submissions through front groups to oppose the public health Bill.

The stakeholders were led by the Chairperson of the Kenya Tobacco Control Alliance (KETCA), Joel Gituli. They cautioned that such efforts threaten progress in tobacco control and public health protection.

For many caught in the web of dependency, the vulnerability begins long before a child ever sets foot in a retail shop. Sharing a poignant personal story, Ann Mathu, the former vice chair of the NACADA Board, highlighted the profound power of parental influence at home.

1. **Dr. John Gondi, Director of Primary Healthcare at MOH, representing Public Health PS Mary Muthoni.**
2. **Students march with the World Tobacco day banner in Embu**

“My very first exposure to tobacco and nicotine products came directly through my father. Parents play a pivotal key role in either protecting children from addictive substances or inadvertently exposing them, making awareness and responsibility within the household abso-

lutely critical. When parents set the right example and actively guide their children, they serve as the first line of defense, helping to prevent early exposure and significantly reducing the long-term risk of addiction,” she said.

Ms. Mathu said even when homes are safe, the battlefield outside has fundamentally transformed. This year’s global campaign theme, “Unmasking the Appeal: Exposing Industry Tactics on Tobacco and Nicotine Products,” highlights a coordinated resistance from business associations, social media campaigns,

and third-party “experts” trying to paint lifesaving reforms as anti-business.

Tobacco control advocates note that they will now need to organize and mobilize just as strongly on their side to ensure public health voices are equally well represented.

“Unmasking these commercial appeals is critical to preventing the next generation from falling into addiction. Advocates must remain vigilant in exposing the tactics used to make nicotine and tobacco products seem acceptable, particularly to children and young people, while ensuring communities understand the real risks of addiction and harm,” Gituli stated.

He further noted that devolved units continue to be a critical arm in this work, as closer collaboration with county governments and community structures will bring tobacco control efforts directly to the grassroots.

He called upon the Ministry of Health to prioritize the Tobacco Control Fund and strengthen support to counties, noting that adequate and sustainable financing is essential to expand prevention programs, enforce tobacco control laws, support cessation services, and protect local communities.

KENYA REVENUE AUTHORITY
Tulipe Ushuru, Tujitegeme!

Public Notice

Filing of 2025 Income Tax Returns

The Kenya Revenue Authority (KRA) reminds all taxpayers that filing of Income Tax Returns for the Year of Income 2025 is ongoing and must be completed by **30th June, 2026**.

To facilitate smooth filing for the 2025 Year of Income, KRA has allowed taxpayers to declare valid business expenses that may not be supported by eTIMS/TIMS invoices. Such expenses may be uploaded during filing and will be subject to validation by KRA after submission.

This allowance applies only to the filing of 2025 Income Tax Returns. From the **2026 Year of Income onwards**, all declared income and expenses must be supported by valid electronic tax invoices generated and transmitted through eTIMS/TIMS.

Taxpayers who fail to file returns by **30th June, 2026** will be subject to **default assessments** in accordance with Section 29 of the Tax Procedures Act, Cap 469B.

For any additional information, please contact the Contact Centre at Tel: 020 4 999 999, 0711 099 999, or Email: callcentre@kra.go.ke, or get in touch with your account or relationship manager at the Tax Service Office.

ANTI-DOPING AGENCY OF KENYA

CAREER OPPORTUNITY

The Anti-Doping Agency of Kenya (ADAK) was established by the Government of Kenya through the Anti-Doping Act No. 5 of 2016 (revised 2020), with its powers vested in a Board, headed by a chairman. The key mandate of the Agency is to protect athletes’ fundamental rights to participate in doping-free sport and thus promoting good health, fairness and equality for athletes in Kenya.

The Agency invites applications from suitable individuals to fill the following vacant position:

Vacancy NO.	Position:	Number of Posts:	GRADE	Salaries Scale:
ADAK/1/6/2026	Chief Executive Officer	1 (one)	ADAK 1	Kshs260,000-460,000

HOW TO APPLY.

Those fulfilling the requirements of the position should apply on-line using the ADAK recruitment portal erecruitment.adak.or.ke on the ADAK website. Applications should be addressed to:

The Board Chairman
Anti-Doping Agency of Kenya (ADAK)
P.O. Box 66458- 00800 NAIROBI.

All applications should reach the Board Chairman on or before close of business 30th June, 2026.

For duties, responsibilities and requirements for appointment for this position please visit the careers section on the ADAK website www.adak.or.ke

Successful candidate in the above position is expected to fulfill the requirements of chapter six of the Constitution of Kenya, 2010. They must obtain and submit clearance certificates from the following organizations:

- Kenya Revenue Authority (KRA)
- Higher Education Loans Board (HELB)
- Ethics and Anti-Corruption Commission (EACC)
- Directorate of Criminal Investigation (Good Conduct)
- Credit Reference Bureau (CRB)

THE ANTI-DOPING AGENCY OF KENYA IS AN EQUAL OPPORTUNITY EMPLOYER. POTENTIAL MALE AND FEMALE, YOUTH, PERSONS WITH DISABILITY, PEOPLE FROM MINORITY AND MARGINALIZED GROUPS AND COMMUNITIES, WHO MEET THE REQUIREMENTS OF THE ADVERTISED POSITIONS ARE ENCOURAGED TO APPLY.

ONLY SHORTLISTED CANDIDATES WILL BE NOTIFIED.

REPUBLIC OF KENYA

Water Resources Authority [WRA]

Securing Water Resources,
Safeguarding Our Future

PUBLIC NOTICE

In accordance with the Water Act, 2016 the Water Resources Authority (WRA) has received the following applications for water permit. WRA invites the public to submit written comments and/or objections to any WRA office, with copies to the local Water Resource Users Association (WRUA) within 30 days of the date of this notice. Any submission must state: The reference number of the application to which the comments apply, Contact of the person making the comments and Grounds for objections, if any. Detailed designs for works can be viewed at the respective WRA Sub Regional office between 8 am and 5pm, Monday to Friday.

INVITATION FOR EXPRESSION OF INTEREST (EOI) AND REQUEST FOR PROPOSAL (RFP) TO ESTABLISH GEOTHERMAL DIRECT-USE INVESTMENTS IN MENENGAI/ BARINGO-SILALI GEOTHERMAL FIELDS IN KENYA.

Geothermal Development Company (GDC) is a fully government-owned organization under the State Department of Energy. It is mandated to develop geothermal resources in Kenya through exploration, drilling and utilization. As part of its mandate, GDC promotes geothermal direct-use; applications beyond electricity generation through utilization of heat from brine (hot geothermal waters) by interested investors and developers.

In line with this, GDC invites interested eligible investors and developers to submit their Expression of Interest and Requests for Proposal (RFP) to establish Geothermal Direct-Use investments within the Menengai or Baringo-Silali geothermal fields in Nakuru, Kenya.

Interested parties **MUST** indicate clearly their specific areas of interest from the two categories below:

1. Expression of Interest to Build, Own and Operate a Geothermal Spa Complex in Menengai Geothermal Field, Nakuru-Kenya.
2. Request for Proposal to establish Direct-Use Applications from Geothermal Brine.

Detailed description of the EOI and RFP documents can be downloaded from the website www.gdc.co.ke

Interested bidders may also access the tender documents from TSC website: www.tsc.go.ke or the Public Procurement Information Portal (PIIP) www.tenders.go.ke free of charge.

Complete bid documents must be enclosed in plain sealed envelopes and clearly marked with the Tender Number and tender description should be addressed to: The **Secretary, Teachers Service Commission, TSC House, Upper Hill, Kilimanjaro Road, Private Bag, 00100, NAIROBI** and deposited in the **Tender Box located at TSC Headquarters, TSC House, Podium Wing, ground floor to be received on or before Tuesday, 23rd June, 2026 9.00 a.m.**

All inquiries and clarifications should be sent via email to: ddprocurement@tsc.go.ke

COMMISSION SECRETARY/ CHIEF EXECUTIVE

State unveils plan to expand irrigation, boost farm output

State Department for Irrigation Principal Secretary Ephantus Kimotho [left] and his National Treasury counterpart Chris Kiptoo [third left] at Galana Kulalu during a past field visit.

BY AKHAL LORUA (PCO)

The State Department for Irrigation has launched the National Irrigation Sector Investment Plan (NISIP), a transformative roadmap aimed at accelerating Kenya's food security agenda, boosting agricultural productivity, and enhancing climate resilience through expanded irrigation development.

The plan targets an increase in the area under irrigation from 664,000 acres in FY 2021/2022 to 1,289,142 acres by FY 2027/2028.

This expansion is expected to enhance agricultural output, create employment, raise household incomes and support the Government's Bottom-Up Economic Transformation Agenda (BETA).

Water available for irrigation is projected to grow from 55.4 million cubic metres (MCM) in FY 2021/2022 to 2,379.2 MCM by FY 2027/2028, ensuring year-round water supply for farming. Speaking during the Head of Public Service Monthly Meeting with Accounting Officers at Konza Technopolis, Principal Secretary for Irrigation, CPA Ephantus Kimotho, presented the status of irrigation development and highlighted key achievements and priorities in advancing national food security. "Through strategic investments in irrigation infrastructure and enhanced water access, irrigated maize production is projected to rise from 0.2 million bags to 5.075 million bags," said Kimotho.

"This expansion will cushion the country against climate shocks, strengthen food reserves and bolster national food

security."

Under the maize value chain, he pointed out that the Department is providing reliable irrigation water to smallholder farmers while operationalizing the Galana Kulalu Food Security Project, which aims to produce over 14 million bags of maize annually from 200,000 acres under irrigation.

Key milestones include the construction of a major intake and reservoir with a capacity of 450,000 cubic metres. Additionally, Project Nafaka is progressing in three phases, with the third phase targeting 20,000 acres within 30 months.

"The Galana Kulalu initiative will not only contribute significantly to food security but also attract foreign investment, create jobs, increase government revenue, and stimulate growth in agro-processing and manufacturing industries," he emphasized.

On the rice value chain, the PS disclosed that the Department has committed to raising paddy rice production to 700,000 metric tonnes by 2027 through strategic irrigation investments and modernization of public schemes.

Interventions, he said, include converting schemes to gravity-fed systems, solarizing infrastructure to cut energy costs, rehabilitating 78,341 acres under existing schemes, and expanding an additional 27,500 acres for rice.

"Our goal is to increase rice production in public irrigation schemes from 305,000 metric tonnes to 570,000 metric tonnes, while commercialization of 35,000 acres will add

another 420,000 metric tonnes annually," noted Kimotho.

"Combined, these efforts will raise total rice production to about 990,000 metric tonnes, bridging the national deficit and reducing reliance on imports," he said.

The Principal Secretary also highlighted progress in horticulture, where the Department is connecting over 100,000 farmers to irrigation water through community schemes and another 10,000 through farmer-led initiatives.

So far, he said that 50 community schemes have been completed, enabling irrigation on 60,000 acres, while 86 projects are ongoing. "These schemes empower smallholder farmers by boosting productivity, diversifying crops, improving incomes, and creating jobs, particularly for youth and women," he remarked.

Kimotho noted that further achievements include 143 completed community water pans and small dams, with 65 ongoing projects.

"Under the household water pans programme, 8,724 units have been completed and 160 are under construction." "The Micro-Irrigation for Schools Programme has also made strides, with 66 projects completed and 31 ongoing, enhancing food production, nutrition, and agricultural learning in schools," he added.

The PS said that other flagship initiatives include the Smallholder Irrigation Programme for the Mt. Kenya Region, expanded community irrigation schemes, and irrigation-supported fodder production programmes to strengthen livestock value chains and support feedlot development.

REQUEST FOR EXPRESSION OF INTEREST (EOI) (CONSULTANCY SERVICES)

THE REPUBLIC OF KENYA

MULTINATIONAL HORN OF AFRICA ISIOLO – MANDERA CORRIDOR

CONSULTANCY SERVICES FOR IRAP STAR RATING ASSESSMENT & ROAD SAFETY AUDIT OF SELECT MAJOR CORRIDORS (2,500 KM) AND INSTITUTIONAL SUPPORT ON DEVELOPMENT OF KENYA ROAD ASSESSMENT PROGRAM (KenRAP)

TENDER NO. KeNHA/2966/2026

Transport Sector

Financing Agreement reference: ADF-2100150042744

Project ID No: P-Z1-DB0-249

- The Government of the Republic of Kenya has received financing from the African Development Fund (ADF) towards the cost of the **Horn of Africa Isiolo – Mandera Corridor: El Wak – Rhamu Road (A13) Upgrading Project**, and intends to apply part of the proceeds for this loan to make eligible payments under the contract for the **Consultancy Services for iRAP Star Rating Assessment & Road Safety Audit of Select Major Corridors (2,500 Km) and Institutional Support on Development of Kenya Road Assessment Program (KenRAP)**.
- The Consultancy Services among others will include (i) to conduct iRAP Star Rating Assessments and Road Safety Audit of select High Risk Corridors (2,500 Km), utilizing Crash Risk Mapping and FSI Estimation to prioritize and deliver a cost-effective Safer Road Investment Plan (SRIP) that targets the achievement of a minimum 3-star standard; (ii) to provide institutional support on development of Kenya Road Assessment Program (KenRAP) as a multi stakeholder initiative; and (iii) to build sustainable capacity for the KeNHA Road Safety Unit and Staff from the Authority through training and knowledge sharing on all aspects related to the services. The assignment will take Thirty (30) months.
- The Kenya National Highways Authority (KeNHA), being the implementing agency of the Government of the Republic of Kenya now invites eligible consulting firms to indicate their interests in providing the above services.
- Interested firms must provide information indicating they are qualified to perform the services (brochures, description of similar assignments, in similar conditions and availability of the appropriate skills among staff, etc). Consultants may form joint ventures to enhance their chances of qualification. Interested international Consultants are further encouraged to team up with local/Kenyan consultants thereby fostering a more nuanced and context-sensitive understanding of the characteristics of Kenyan road infrastructure. Such partnerships leverage the invaluable experiential knowledge of local consultants, who possess deeper insights into the prevailing operational challenges, environmental conditions, and user dynamics. Moreover, this synergy ensures that proposed safety interventions are not only technically sound but also contextually appropriate, practically implementable, and sustainably aligned with the socio-economic and institutional realities of the Kenyan environment. The short-listing criteria comprise:
 - Firm's Registration:** The firm must be duly registered and have a minimum of eight (8) years' experience in the fields of transport engineering, road safety engineering, and/or road infrastructure assessment. Demonstrable experience in applying internationally recognized road safety methodologies, particularly the iRAP (International Road Assessment Programme) framework or equivalent, will be required.
 - Firm's Experience:** The firm must demonstrate specific experience in successfully undertaking at least three (3) similar assignments. Such assignments should include iRAP Star Rating Assessments, road safety risk mapping, or comparable road infrastructure safety evaluations, as well as experience in road safety improvement strategies and/or capacity-building initiatives.
 - Experience in similar conditions:** The firms that demonstrate having experience in similar assignments in Sub-Saharan Africa will be an added advantage.
 - Availability of Key Experts:** The firm must demonstrate adequate technical and managerial capability to undertake the assignment, including familiarity with data collection technologies, road safety analysis tools, and institutional capacity development. Key Experts will not be evaluated at the shortlisting stage.
- Eligibility criteria, establishment of the short-list and the selection procedure shall be in accordance with the African Development Bank's "Procurement Policy for Bank Group Funded Operations"-August, 2015, which is available on the Bank's website at <http://www.afdb.org>. Borrowers are under no obligation to shortlist any consultant who expresses interest.
- Interested consultants may obtain further information at the address below during office hours (weekdays from 0800hr to 1700hr local time, excluding public holidays).

Attention: Director (Highway Design and Survey)
Street Address: Kenya National Highways Authority, Barabara Plaza, Jomo Kenyatta International Airport (JKIA), Nairobi, off Mazao road (Opposite Aviation House)

Kiambu County records historic first telemedicine-assisted surgery

BY COLLINS ESIKE (KNA)

Kiambu County has achieved a major milestone in healthcare innovation following the successful conduct of its first telemedicine-assisted surgery.

The breakthrough is expected to strengthen specialized medical care, training, and collaboration among health professionals across the County.

The landmark procedure, a live Caesarean section performed at Kiambu Level 5 Hospital using the Proximie digital platform, brought together healthcare professionals from Kiambu Level 5 Hospital, Kihara Level 4 Hospital, Thika Level 5 Hospital, alongside medical experts based in the United Kingdom.

The surgery was conducted and monitored in real time through advanced digital surgical technology, enabling specialists in different locations to observe, guide and support the procedure remotely.

According to County Executive Committee Member (CECM), Dr. Elias Maina, the Proximie platform facilitates seamless collaboration among surgeons and medical practitioners by combining high-definition video technology with interactive digital tools.

The system allows healthcare professionals to share expertise, mentor one another, and provide clinical support regardless of geographical location.

Kihara Level 4 Hospital, whose medical team participated in the exercise, described the event as a historic achievement in the county's healthcare transformation journey.

This technology will reportedly enhance access to specialist knowledge, improve clinical decision-making, and provide healthcare workers with valuable opportunities for continuous learning and professional development.

“The telemedicine-assisted surgery is also expected to strengthen collaboration among hospitals within the County by creating a digital network through which medical practitioners can consult, audit procedures, and exchange knowledge in real time,” Dr. Maina added.

The adoption of telemedicine solutions is increasingly becoming an important component of modern healthcare systems, particularly in improving access to specialized care and reducing the need for patient referrals.

This initiative aligns with Kiambu County's ongoing efforts to modernize healthcare services through investment in medical infrastructure, advanced equipment, and digital health technologies.

Vihiga set to establish new fish hatchery at Kaimosi VTC

Vihiga Governor Wilberforce Ottichilo inspects fish farming activities at Mwitoko Fish Hatchery during a field visit last year. The facility has played a key role in supplying fish fingerlings to farmers across the county and promoting aquaculture development.

BY ROSE WASIKE (KNA)

Residents of Upper Vihiga are set to benefit from improved access fingerlings following the launch of a

new fish hatchery project.

The project seeks to bring fish fingerling production closer to local farmers and reduce reliance on the Mwitoko Fish Hatchery,

which serves a wider area.

Speaking during the launch, Kaimosi Vocational Training College Principal Zaddock Munala welcomed the initiative, describing it

as a transformative project for both the institution and the surrounding community.

"We fully support this project because it will benefit our students and the community at large. We look forward to establishing a fisheries and marine training centre in the future," he said.

He noted that students pursuing carpentry courses would gain practical skills by participating in the construction of the facility, which will consist of two fish ponds and a counting shade.

Munala urged the contractor to ensure quality workmanship and complete the project within the stipulated timelines and standards.

Vihiga County Director of Agriculture Daniel Oketch said the hatchery would play a key role in boosting fish production in the county and encouraging more farmers to venture into aquaculture.

According to Oketch, the facility will serve as a practical training centre for students pursuing fisheries and marine technology courses, providing them

with hands-on experience and technical skills in fish farming.

He expressed confidence that excavation works would be completed within a short period and called on the contractor to ensure the project is finalized before the end of the current financial year.

The hatchery project, which includes two fish ponds and a counting shade, is expected to enhance fish farming, improve the availability of quality fingerlings and strengthen vocational training opportunities at the institution.

NOTICE OF SALE BY PUBLIC AUCTION

REF NO: RBA/AUCTION/613/1978/2026

The applications should be received not later than **Tuesday, 23rd June, 2026 at 5.00 pm.**

EACC is an equal opportunity employer. Canvassing will lead to automatic disqualification.

Marigat, Chemolingot hospitals to support campaign against Hepatitis B

BY BENSON KELIO AND
JOSHUA KIBET (KNA)

The Kenya Medical Research Institute (KEMRI) has identified Marigat and Chemolingot Sub County hospitals

in Tiaty and Baringo South Constituencies, respectively, for support in the fight against the deadly Hepatitis B virus and Kala-azar disease.

Speaking to the press outside Baringo governor's

office in Kabarnet town, KEMRI Chief Executive Officer Prof. Elijah Songok said the move to establish the two model health facilities was geared towards eradicating the endemic diseases in the region.

The vast county, according to Prof. Songok, is rated among the top three in Kenya for the highest prevalence of Hepatitis B and position five in Kala-azar disease.

He stated that his organization was collaborating with the county administration of Governor Benjamin Cheboi in the establishment of dedicated centres for testing and management of patients from within the county

and beyond.

"We are going to jointly lobby for Hepatitis B vaccines so that every household which is facing the risk is vaccinated and set up clinic for all those who have been infected," he said.

The CEO noted that vaccines against Kala-azar in Chemolingot are going to be introduced for the first time in the country with similar tests to be administered concurrently to

patients in Brazil and the United States of America.

Cheboi, in his remarks thanked KEMRI for the noble course that he said will greatly transform healthcare services in the county.

He revealed that through the partnership, the County was also going to benefit from the research of anti-venom in order to address the persistent threat of snakebites in the region.

PRINCIPAL SECRETARY

INVITATION TO TENDER

INVITATION TO SENSITIZATION FORUM FOR LOCAL-LOCAL SUPPLIERS ON ACCESS TO GOVERNMENT PROCUREMENT OPPORTUNITIES

(WESTERN REGION, TANA POWER STATION, COASTAL REGION,
EASTERN REGION AND NGONG POWER STATION)

Kenya Electricity Generating Company Plc (KenGen) is a State Corporation whose mandate is to develop, manage, and operate power generation plants to supply electric energy to the Kenyan market and the Eastern Africa region. KenGen is the leading power generation company, producing approximately 60% of the electricity consumed in the country.

As a leader in electricity generation in Kenya, and in alignment with the Government of Kenya's policy aimed at enabling the Youth, Women, and Persons Living with Disabilities (PWDs) to access a minimum of 30% of government procurement opportunities, KenGen has been undertaking proactive initiatives to organize sensitization workshops.

These sensitization forums will specifically target local-local Suppliers from Western Region, Tana Power Station, Coastal Region, Eastern Region and Ngong Power Station and its environs with a radius of up to 50 kilometers from the Power Stations, with the aim of empowering and onboarding suppliers operating around KenGen installations under the "Local-Local Suppliers" initiative.

Objectives of the Workshop:

- Enhance awareness among the Local-Local Suppliers.
- Build capacity among Local-Local Suppliers.
- Promote fair competition in government procurement processes.

Scope of the Workshop:

- Supplier Relationship Management (SRM) and EGP
- Awareness on Local-Local supplier participation
- Compliance with PPADA 2015 and PPADR 2020 and related legislation
- Financial including LPO financing and tax considerations

Forum Details:

Target Group: Local-Local Suppliers operating within Eastern Region, Tana Power Station, Coastal Region, Western Region, Ngong Power Station and their surrounding areas.

Dates: Wednesday, 17th June 2026

Time: 9:00 a.m.-1.00pm.

Venues:

- **Eastern Region:** Matendeni Social Hall (KenGen Premises)
- **Tana Region:** Tana Power Station Social Hall (KenGen Premises)
- **Coastal Region:** Sapphire Hotel, Mombasa
- **Western Region:** Western Power Station Social Hall (KenGen Premises)
- **Ngong Region:** Ngong Power Station Social Hall (KenGen Premises)

CHARLES DULO, EBS
COMMISSION CHAIRPERSON

Egerton turns to mechanisation to attract more youth to farming

BY ESTHER MWANGI (KNA)

Egerton University has launched an initiative aimed at promoting the adoption of mechanised farming among young small-holder farmers to enhance food production and improve the quality of agricultural produce in the country.

The university has partnered with the Corporation for Africa and Overseas (CFAO) Kenya to strengthen training in mechanised agriculture, foster innovation and facilitate technology transfer through its Department of Agricultural Engineering.

Egerton University Vice Chancellor Prof. Isaac Kibwage said the institution is also developing public-private partnerships aimed at establishing mechanisation hubs that will link providers of mechanised farm services with smallholder farmers who lack access to agricultural machinery.

Prof. Kibwage said the partnership with CFAO-Kenya, formalised through a Memorandum of Understanding (MoU), is expected to boost agricultural productivity,

Egerton University VC, Professor Isaac Kibwage (Third left) and Corporation for Africa and Overseas (CFAO)-Kenya Finance Director, Patrick Karanja (Fourth right).

enhance practical training for students and improve farmers' access to efficient farming solutions.

He described the deal as a significant step towards strengthening innovation and research in agriculture, noting that it will help bridge the gap between academic training and industry needs. CFAO-Kenya, a subsidiary of the French-based CFAO Group owned by Japan's Toyota Tsusho Corporation, is one of the

largest automotive distributors and service providers in Kenya.

Prof. Kibwage further disclosed that the firm has donated two tractor engines to the Faculty of Agricultural Engineering to enhance practical training and boost students' technical capacity. He added that the partnership aligns with the Competency-Based Curriculum.

He said CFAO has so far facilitated the training of more than 700 tractor operators in the

region, noting that the initiative aims to equip young farmers with mechanised farming skills, increase productivity and make agriculture more attractive to the youth.

"We envision a situation where small holder youth farmers have access to subsidized mechanization, which will in turn help reduce over reliance on human labor, which is not economical," stated the Vice Chancellor.

Professor Kibwage indicated that the initiative aligns with BETA's commitment to increasing agricultural productivity and expanding economic opportunities for grassroots communities.

He added that by empowering youth and women in small-scale farming with access to mechanized farming techniques, Egerton University was working to bolster Kenya's food security and stimulate rural economies through practical skill development.

The collaboration will include joint training programs, a three (3) year- apprenticeship program for students, Internship and attachments to graduates, research projects and pilot initiatives by students aimed at demonstrating the benefits of mechanized farming.

IPOA use community engagement to strengthen relations

BY DAVID WANDETO (KNA)

The Independent Policing Oversight Authority (IPOA) has intensified efforts to strengthen relations between police officers and members of the public through community engagement forums aimed at promoting peace, accountability and professional policing.

Speaking during a stakeholders' meeting held at the NG-CDF Hall in Kerugoya, Kirinyaga County, IPOA Chief Executive Officer, Mr. E. Lemahale said the authority had visited the region to bridge the gap between wananchi and security agencies and encourage cooperation in maintaining law and order.

Mr. Halake noted that IPOA represents both the police and members of the public in ensuring fairness, accountability and adherence to the rule of law.

"The police cannot work effectively without the support of the public, and wananchi equally depend on the police for their security. We must therefore build trust and work together," said Mr. Halake.

THE JUDICIARY

TENDER NOTICE

The Judiciary invites sealed bids from eligible bidders for the following tenders;

Tender No.	ITEM DESCRIPTION	Eligibility	Tender Closing/Opening Date
JUD/OT/057/2025-2026	Proposed Lease of Motor Vehicles to The Judiciary for a Period of Five (5) Years	ALL	23rd June 2026 at 1000hrs

Deadline for Applications: **29th June, 2026**

Note: RCGW is an equal-opportunity employer committed to diversity and gender equality. Persons with disabilities and marginalized groups are strongly encouraged to apply.

Over 400 residents of Turkana South receive eye treatment

A patient undergoes cataract surgery in Lokichar, Turkana South sub county. Photos by Peter Gitonga.

BY PETER GITONGA (KNA)

Over 400 residents from Lokichar and Kalapata wards have received specialized eye care services, including cataract surgeries and screening, following conclusion of a four-day free eye medical camp conducted by the County Government in partnership with the Fred Hollows Foundation.

Speaking during the camp, Turkana South Sub-County Eye Coordinator, Anne Louyei, said the initiative aimed at reaching underserved populations in the two wards through enhanced outreach, screening, and sensitization efforts.

The camp attracted patients from various remote areas including Loperot, Napusmoru, Lochwaa, Locheremoit, Lodwar and Lokori in Turkana Central and East respectively.

“Our target was to attend to at least 300 patients, and I am proud to say we achieved and surpassed that. We recorded over 100 successful cataract surgeries,” said Louyei.

Among the beneficiaries was 80-year-old Akuwom Margaret from Lokori, who had previously missed a similar medical camp conducted in her area a few months earlier. Akuwom said she completely lost her sight in March 2025 and had depended entirely on relatives for support.

“I was brought here by my granddaughter while visiting her. My first operated eye has regained sight clearly, and now the second one is also improving. Both eyes had gone completely dark. I can now even walk to the toilet by myself,” she said.

The county government continues to record high prevalence rates of avoidable blindness at 6.2 percent compared to the national average of 2.85 percent.

Decentralization of eye care services remains a critical strategy to improving access with eye care services now accessible at the facility.

Oscar Montana, an Ophthalmic Clinical Officer, attributed the high prevalence of eye problems to environmental and climatic conditions.

“Eye complications in Turkana remain high due to prolonged exposure to dust from an early age, harsh climatic conditions, solar effects, and old age,” he explained.

For 60-year-old bead worker Lomongin Ipilio from Tonyoutu village in Lokichar, the surgery marked the beginning of a new chapter after living in darkness for three years.

“My eyesight gradually reduced until I could no longer see or continue with my beadwork. I lost both my sight and livelihood,” she recounted.

“Three days after surgery, I can now clearly see the Kalong’ot Hills from where I am seated. I can fetch my own water again because I am not too old to depend entirely on others,” she added with a smile.

Another beneficiary, 74-year-old pastoralist Loriongoreng Epuu from Nakwakitela village within Lokichar, said regaining his sight restored not only his independence but also his dignity.

MINISTRY OF WATER, SANITATION AND IRRIGATION

CENTRAL RIFT VALLEY WATER WORKS DEVELOPMENT AGENCY

INVITATION TO TENDER

Obtaining bidding documents

Tender documents may be viewed and downloaded for free from the www.crvwwda.go.ke or at PPIP portal www.tenders.go.ke. Tenderers who download the tender document must forward their particulars immediately to procurement@crvwwda.go.ke to facilitate any further clarification or addendum.

Submission

Complete tender document marked the tender No. must be delivered to the tender box situated at the address below by the dates indicated above at **12:00 Noon**. Tenders must be accompanied by a tender security as stated above in form of a bank guarantee. The Tenderer shall chronologically serialize all pages of the tender documents submitted. Late tenders will be rejected.

The bids will be opened at 12:05 hours local time on stated dates in the presence of the bidders who choose to attend, bidders’ representatives who chose to attend must submit written authorization from the firms they are representing.

The address referred to above is:

Universities enlisted in push to demystify GMOs for public

BY LINDSEY OCHIENG
(MYGOV)

The Government has stepped up efforts to build public understanding and acceptance of genetically modified organisms (GMOs), amid concerns that misinformation and disinformation could derail Kenya's biotechnology agenda.

The initiative, led by the National Biosafety Authority (NBA), aims to improve public awareness of modern biotechnology and its potential to address food insecurity, climate change, pest and disease control, and low agricultural productivity.

Speaking during a Science Café held at Bukura Agricultural College, NBA Acting Chief Executive Officer Dr. Ann Karimi said misinformation continues to fuel public scepticism, making scientific literacy and accurate communication central to the adoption of biotechnology in the country.

"Public awareness, scientific literacy and evidence-based communication remain critical in ensuring that Kenyans appreciate the role of biotechnology in food security, environmental sustainability and economic development," Dr. Karimi said. She said the Authority is working with institutions of higher learning to strengthen biosafety education and

Students from various institutions during a science cafe at Bukura Agricultural College.

equip students with skills needed for the responsible use of biotechnology.

Dr. Karimi added that the NBA is also pursuing partnerships with universities and colleges through Memoranda of Understanding to sustain training programmes in biotechnology and biosafety.

"As an Authority, we recognize that the future of safe and responsible biotechnology lies in empowering institutions of learning, researchers, lecturers and students with the necessary knowledge, skills and practical exposure in biosafety and biotechnology," she said.

She noted that modern biotechnology remains key in addressing Kenya's agri-

cultural challenges, citing the approval of genetically modified crops such as Bt Cotton as evidence of the country's science-driven approach. Dr. Karimi further urged the public to rely on scientific evidence rather than myths and misconceptions when forming opinions on GMOs.

Bukura Agricultural College Principal and Chief

“As an Authority, we recognize that the future of safe biotechnology lies in empowering institutions of learning

Executive Officer Paul Njogu echoed the sentiments, urging students to take up the role of biotechnology ambassadors in farming communities.

"Students need to understand both the science and the safety mechanisms that the NBA uses to regulate biotechnology so that they can be good ambassadors of promoting the safe use of biotechnology, including GMOs," he said.

He encouraged learners to acquire relevant skills and maintain positive attitudes towards biotechnology, noting their role in transforming agriculture and enhancing sustainable food production.

Youth urged to tap blue economy jobs through maritime training

BY SADIK HASSAN (KNA)

Youth have been urged to enroll in maritime courses to tap into the vast, largely untapped employment opportunities in the blue economy. Bandari Maritime Academy (BMA) Chief Executive Officer Dr. Eric Katana said maritime training offers a practical solution to youth unemployment, noting that the blue economy presents diverse career opportunities beyond the traditional perception that it is limited to fishing. "The Blue Economy ecosys-

Bandari Maritime Academy (BMA) Chief Executive Officer Dr. Eric Katana.

tem is vast and encompasses various sectors, including fisheries, aquaculture, maritime transport, renewable energy, tourism, and off-

shore resource exploration," he said.

He emphasized that oceans and seas contain valuable resources such as oil and natural gas that require skilled professionals for exploration and extraction.

"The ocean and seas have oil and gas resources that need to be exploited. However, this is only possible through proper maritime training. Without qualified experts, these valuable resources will remain untapped," Dr. Katana noted.

The CEO further highlighted the significance of the maritime industry to

global trade and economic development, noting that more than 80 percent of the world's trade is transported by sea.

"Shipping remains one of the most important industries globally due to its critical role in facilitating international trade," he said.

Dr. Katana also clarified that the Blue Economy is not limited to coastal regions but also encompasses inland water bodies, such as lakes and rivers.

"The Blue Economy sector encompasses both marine and inland waters," he explained.

BRIEFS

Vihiga farmers to benefit from new fish project

BY ROSE WASIKE
(KNA)

Residents of Upper Vihiga are set to benefit from improved access to fish fingerlings following the launch of a new fish hatchery project.

The project seeks to bring fish fingerling production closer to local farmers and reduce reliance on the Mwitoko Fish Hatchery, which serves a wider area.

Speaking during the launch, Kaimosi Vocational Training College Principal Zaddock Munala welcomed the initiative, describing it as transformative for both the institution and the surrounding community.

"We fully support this project because it will benefit our students and the community at large. We look forward to establishing a fisheries and marine training centre in the future," he said.

He noted that students pursuing carpentry courses would gain practical skills by participating in the construction of the facility, which will consist of two fish ponds and a counting shed.

Munala urged the contractor to ensure quality workmanship and to complete the project within the stipulated timelines and standards.

Vihiga County Director of Agriculture Daniel Oketch said the hatchery would play a key role in boosting fish production in the county and encouraging more farmers to venture into aquaculture.

According to Oketch, the facility will serve as a practical training centre for students pursuing fisheries and marine technology courses, providing them with hands-on experience and technical skills in fish farming.

He expressed confidence that excavation works would be completed within a short period and called on the contractor to ensure the project is finalized before the end of the current financial year.

The hatchery project, which includes two fish ponds and a counting shed, is expected to enhance fish farming, improve the availability of quality fingerlings and strengthen vocational training opportunities at the institution.

Milk coolers handed to Kajiado cooperatives

BY DIANA MENETO
(KNA)

The government through the State Department for Livestock Development has distributed four milk coolers to dairy farmers' cooperatives in Kajiado County under the Livestock Value Chain Support Project.

Speaking during the handover ceremony, Principal Secretary for Livestock Development, Jonathan Mueke, said the coolers will help reduce post-harvest milk losses, improve milk aggregation and enhance milk quality.

Mueke said more than 2,000 farmers are expected to benefit from the project, with the equipment valued at Sh28 million.

He remarked the department will also train farmers on quality milk production to enable them earn better returns, adding that the government plans

to provide testing machines to measure protein, butter fat and bacteria content in milk to help farmers improve quality and profitability.

Kajiado County Woman representative Leah Sankaire welcomed the initiative, adding that the coolers will enhance milk storage and support women engaged in dairy farming across the county. She said the four cooperatives were selected after a thorough assessment to ensure fair distribution across Kajiado County.

The beneficiary cooperatives are Emparnat, Enchipai, Nasiru and Lenkism Dairy Farmers Cooperatives.

Sankaire said her office will continue supporting dairy cooperatives through milk production, marketing and value addition initiatives aimed at improving livelihoods and promoting economic growth.

FOREIGN POLICY

Ruto's South Africa and Europe visits strengthen Kenya's economic diplomacy

The visits reinforce Kenya's global economic diplomacy, underscoring his Administration's Foreign Policy that is anchored on trade, investment and strategic partnerships

President William Ruto has stepped up Kenya's global economic diplomacy, touring various nations to unlock investment opportunities, expand export markets and strengthen strategic partnerships.

His bilateral engagements, in particular, are geared towards securing trade agreements that guarantee duty-free access for Kenyan exports and attracting investment in renewable energy and digital innovation.

This week, President Ruto is on an Official Visit to Belgium and Norway and will also make a State Visit to Finland. In Belgium, the President met with Majesty King Philippe and Mr Mathias Diependeale, the Minister-President on Flanders, with the talks aimed at strengthening bilateral ties, trade and investment.

He is also expected to hold meetings with business leaders to explore opportunities in value addition, manufacturing, agriculture and logistics as the Government works to increase exports and attract investment into crucial sectors of the economy.

Similarly in Norway, President Ruto will meet Prime Minister Jonas Gahr Støre and Royal Highness Crown Prince Haakon.

"He will also participate in the Kenya-Norway Business Forum, where Kenyan and Norwegian investors will explore partnerships in renewable energy, electric mobility, the blue economy, climate-smart agriculture and other sectors that can create jobs and drive sustainable economic growth," State House spokesperson Hussein Mohamed said.

The State Visit to Finland will see him meet President Alexander Stubb, who in May 2025 made a historic State Visit to Kenya. The two countries are expected to deepen cooperation in education, technology and digitisation, clean energy, environmental sustainability, health and peace and security while strengthening bilateral relations and economic cooperation.

While in Europe, the President is further expected to hold talks with the leadership of the European Union, including European Council President António Costa and European Parliament President Roberta Metsola.

Kenya and the European Union signed an Economic Partnership Agreement (EPA) in 2023, which provides duty-free and quota-free access for Kenyan exports to the European market. The agreement,

Presidents William Ruto (second right) and Cyril Ramaphosa of South Africa. The two witnessed the signing of six trade agreements between the two nations last week.

which took effect in 2024, has helped unlock greater opportunities for Kenyan farmers and exporters, particularly in tea, coffee, cut flowers, horticulture and other value-added products.

Total trade between Kenya and the EU hit \$3.6 billion in 2025, an increase of 16 per cent compared to 2018. Kenya's main exports to the EU are horticultural produce in particular fruits, cut flowers and vegetables as well as tea and coffee.

The President's visit to Europe comes just a week after his State Visit to South Africa, where he held bilateral talks with President Cyril Ramaphosa and witnessed the signing of six agreements covering trade, maritime cooperation, education,

culture, sports and women's empowerment.

The agreements span trade, shipping and maritime, gender equality and women's empowerment, technical and vocational education and training as well as arts, heritage, sports and recreation.

President Ruto said the agreements build on decades of cooperation between Nairobi and Pretoria.

"Long before our High Commissions opened in 1994, the year of South Africa's democratic rebirth, we were bound by the shared experience of colonialism, by the solidarity of our liberation movements and by a common dream of an Africa that governs itself, feeds itself and speaks for itself," he said.

Kenya and South Africa established a Joint Commission for Cooperation in 2007. A second session of the Commission would convene as scheduled following President Ruto's visit.

Trade between the two countries has recorded steady growth, increasing from \$590 million (Sh76.4 billion) in 2024 to Sh84.1 billion in 2025.

Presidents Ruto and Ramaphosa acknowledged the existence of tariff and non-tariff barriers, which have limited market access affecting trade.

They directed their trade Ministers to implement recommendations of the Seventh Joint Trade Committee and address the barriers.

INFOBOX

Benefits of Economic Diplomacy

- * **Market Access:** Agreements provide duty-free and quota-free access for Kenyan exports such as tea, coffee, cut flowers, and horticulture.
- * **Investment Attraction:** It encourages foreign direct investment in renewable energy, manufacturing, agriculture and digital innovation.
- * **Job Creation:** New investments in industries such as logistics, energy, and ICT generate employment opportunities.
- * **Industrial Growth:** It strengthens Kenya's manufacturing base by linking local industries to global value chains.

"We are also positioning ourselves to unlock greater trade opportunities through the African Continental Free Trade Area, expand markets, boost investment and drive inclusive growth," President Ruto said.

Kenya's Foreign Policy rests on five main pillars namely peace and security, economic diplomacy, diaspora diplomacy, environmental diplomacy and cultural diplomacy.

The five pillars, contained in the new Foreign Policy unveiled in 2024, guide the country's international engagements, ensuring that foreign relations contribute directly to national development and global influence

Economic diplomacy emphasizes trade facilitation, investment attraction and market expansion, ensuring that agreements like the EU Economic Partnership Agreement and frameworks such as the African Continental Free Trade Area directly benefit Kenyan farmers, exporters, and industries.

President Ruto notes that the new foreign policy is anchored on delivering real economic gains, with diplomacy serving as a driver of growth and opportunity.

This approach is a shift in his Administration, which focuses on diplomacy that is practical and people centred, anchored on the five pillars. ■

strengthen knowledge management through the production of KALRO Researches, ensuring that critical agricultural findings reach farmers, policymakers, and the broader public effectively.

By combining KYEB's publishing

competencies with KALRO's agricultural research capacity, both institutions aim to deliver impact through accessible, research-backed storytelling.

This initiative aligns with KYEB's mandate to publish and enhance Government communication by documenting policies, programme, and development achievements.

The partnership MoU will be signed by KYEB CEO Lillian Kimeto and her KALRO counterpart Dr Patrick Ketiem.

KALRO, a Government institution, conducts research and development activities to enhance agricultural and livestock productivity and sustainability in Kenya. ■

Kenya makes history with top win at China ICT event

Kenya has recorded its greatest-ever performance at the Huawei ICT Competition 2025-2026 Global Finals in China, bringing home the Grand Prize for the first time in the contest's 10-year history.

A team of four Kenyan students – Kevin Tuei, Catherine Atieno, Brian Ngugi Kamau and Salem Kim – emerged overall winners in the Cloud Category, defeating more than 220,000 participants from over 100 countries in the event held from June 2 to 5, 2026 in Shenzhen, China.

Information, Communications and the Digital Economy Cabinet Secretary William Kabogo hailed the victory as proof of Kenya's growing digital prowess.

"This achievement reinforces our belief that investing in digital

This achievement reinforces our belief that investing in digital skills, innovation and technology education is key," ICT CS William Kabogo.

and Joy Wairimu secured First Prize in the Network Category, while an all-female team – Esther Wairimu, Joan Nkatha, Melane Minayo, and Faith Mosonik – won the Women in Technology Award.

The win places Kenya among the world's leading nations in ICT talent development and signals the country's rising influence as Africa's premier technology hub. ■

skills, innovation, and technology education is key to unlocking opportunities for our youth and positioning Kenya as a global leader in the digital economy," said Mr

Kabogo.

The CS further commended all industry players, who continue to support the development of world-class ICT talent in the country,

highlighting the win as proof of the nation's potential. "As we advance our Digital Superhighway agenda, this achievement serves as a powerful reminder that Kenya's greatest resource

is its people. The future is bright," he added. The Kenyan contingent also delivered a clean sweep across other categories. A team comprising Denzel Nzinga, Robert Wambua,

FINANCIAL INCLUSION

Hustler Fund continues to transform lives

Since its launch, the Fund has enabled small businesses, traders, and ordinary citizens at the grassroots to access instant loans, build savings and grow their enterprises

The Government's Financial Inclusion Fund, popularly known as the Hustler Fund, continues to deepen financial inclusion and uplift livelihoods across the country, with cumulative disbursements now at over Sh 87 billion as of May 14, 2026. According to the latest Fund data, 27.7 million Kenyans have opted into the programme, while mobilised savings have grown to Sh5.5 billion, underscoring increasing public confidence in the initiative. The Fund has also recorded strong repayment performance.

The Personal Loan product has registered 9.7 million repeat borrowers, with an overall repayment rate of 83 per cent. The recently introduced Bridge Loan product currently has 662,000 active borrowers out of 906,000

opted-in customers, boasting a repayment rate of 89 per cent.

The impact of the Fund is being felt across the country. In Kimilili, Bungoma County, a veterinary doctor credits the Hustler Fund with helping him stabilise and grow his business.

Starting with a loan limit of Sh3,000, consistent borrowing and timely repayment has since grown his limit to Sh39,000, which he uses to restock and expand his veterinary shop. The improved business performance increased his income and strengthened his ability to support his family, particularly in financing his children's education.

In Myanga, Bungoma County, small-scale shopkeeper Jane Ayuma says access to Hustler Fund credit enabled her to increase stock and improve operations after years of struggling with limited capital.

Beginning with a loan limit of Sh3,000, now increased to Sh32,100 due to consistent repayment, she has steadily expanded her business.

The additional income has helped improve her family's living standards and support her children's education.

In Butula, Busia County, farmer Eugene Otieno has steadily grown his livestock venture through disciplined use of the Fund. Beginning with a Sh500 loan that has now grown to Sh18,000, he initially purchased

Eugene Otieno from Butula, Busia County, who has steadily grown his livestock venture through disciplined use of loans from Hustler Fund.

two chickens and gradually expanded his farming activities through reinvestment and timely repayment. He now owns his first cow

and plans to continue growing his livestock business to secure his family's future.

entrepreneur operating in Atherai, Teso South, Busia County. Starting with a Sh500 loan limit that has risen to Sh5,000, she invested in additional utensils and supplies, allowing her to expand her catering services and serve more customers during local events.

The impact of the Fund was further highlighted during a joint Hustler Fund and Uwezo Fund sensitisation forum held in Bumula and Butula constituencies, presided over by Cabinet Secretary for Cooperatives and MSMEs Development, Wycliffe Oparanya.

The initiative marked a significant step in bridging financial gaps and strengthening economic opportunities at the grassroots level.

Hustler Fund Chief Executive Officer Henry Tanui underscored the Fund's transformative role in expanding financial access, particularly among youth, women, and micro and small enterprises.

He noted that the collaboration between the Hustler Fund and the Uwezo Fund supports the Government's broader agenda of building an inclusive financial ecosystem that empowers citizens across all levels of the economy.

The fund continues to support micro and small enterprises, promoting a savings culture, and expanding access to affordable credit for ordinary Kenyans. ■

DCI starts roll out of biometric system at Huduma Centres

The Directorate of Criminal Investigations (DCI) has begun assessments ahead of the roll-out of the Multi Biometric Identification System (MBIS), a new technology designed to strengthen identity verification and speed up police clearance services.

At Huduma Centres, the DCI provides police clearance certificates, popularly known as Good Conduct certificates, alongside police abstract services. The introduction of MBIS will integrate biometric features such as fingerprints and facial recognition,

HUDUMA CORNER

reducing delays, improving accuracy and enhancing security in processing records. The innovation is expected to transform service delivery by making processes more efficient and building public confidence in government systems.

Citizens will benefit from faster turnaround times, fewer errors and stronger safeguards in accessing essential services.

Assessment visits are part of a continuous process to ensure

readiness for the roll-out. Teams are reviewing infrastructure, connectivity, and service desks to identify gaps and recommend improvements. The focus is on staff preparedness, technical support, and public awareness to guarantee smooth adoption of the new system.

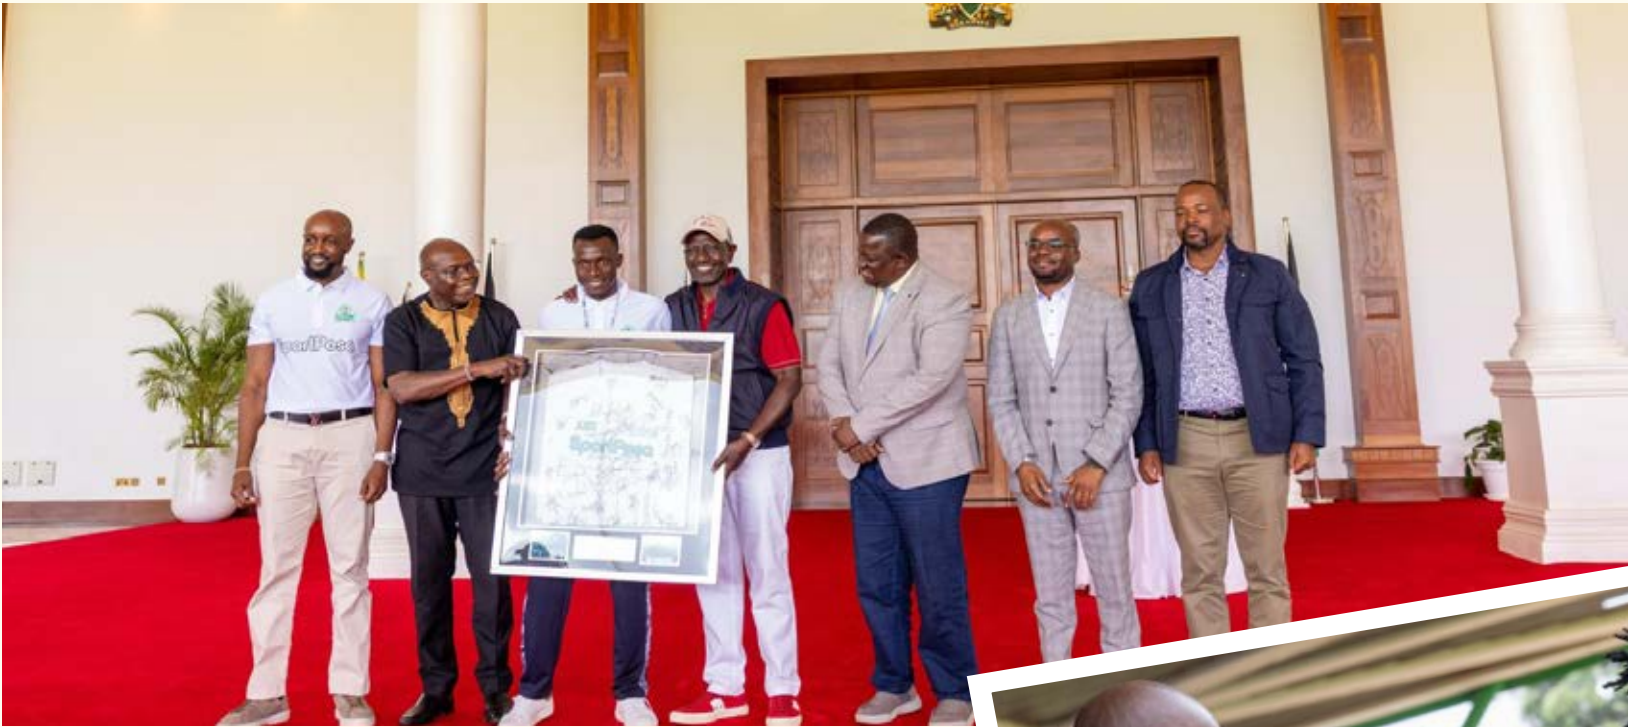

By modernising identity verification, MBIS represents a significant step forward in transforming public service delivery.

It strengthens the link between government services and wananchi, ensuring that every Kenyan experiences dignified, secure and efficient access to essential services. ■
